## 2. HOW THE WHOLESALE GLOBAL EQUITY – VALUE FUND WORKS

### Investing in a managed investment scheme

The Fund is a managed investment scheme structured as a unit trust and registered under the *Corporations Act 2001* (Cth) (Corporations Act). A managed investment scheme is where investors' money is pooled together to purchase the Fund's assets, and it is the investment manager, not investors, who has day to day control of the Fund. The Fund's constitution, along with the Fund's PDS, the Corporations Act and other relevant laws, sets out the relationship between the Responsible Entity and investors.

### The value of your investment

Investors in a managed scheme are issued with 'units', each of which represents a share of the value of the scheme's assets.

The Fund has only one class of units. At its discretion the Responsible Entity may from time to time introduce new classes of units.

Unit prices can rise and fall on a daily basis depending on a number of factors, including the market value of the Fund's assets. Consequently, the value of your investment will vary from time to time.

The value of your investment at any point in time is calculated by multiplying the number of units you hold, by the unit price current at that time. Unit prices are updated regularly online at [www.ampcapital.com](http://www.ampcapital.com) and can also be obtained by contacting us.

### Investing in the Fund

#### Who can invest?

Applications to invest in the Fund through this PDS can be made by individual and joint investors who are 18 years of age or over, and by partnerships, companies, trusts and superannuation funds, who receive the PDS (including electronically) within Australia. We can only accept applications signed and delivered from within Australia, and we reserve the right to refuse or reject an application.

Applications can be made by direct and indirect investors (see below).

#### Direct investors

##### Apply online

You can complete your application quickly and simply online at [ampcapital.com/applyonlinetoday](http://ampcapital.com/applyonlinetoday). Alternatively, you can download a paper copy of the application form at [www.ampcapital.com](http://www.ampcapital.com) (go to the Fund page for which you are investing).

A minimum initial investment of \$25,000 must be made.

You can make initial or additional investments via direct deposit, direct debit or cheque. Just follow the instructions when completing your application online, or refer to the payment instructions on the application form.

No units will be issued on the basis of the PDS when it is no longer current.

#### Indirect investors

It is possible to gain exposure to the Fund through an investment or reporting service such as a master trust, wrap account, investor directed portfolio service or nominee or custody service. In this PDS, these services are referred to as master trusts or wrap accounts, and the people who invest through them are referred to as indirect investors. If you wish to invest through a master trust or wrap account, please refer to their terms and conditions.

#### Additional investments

##### Direct investors

To make additional investments, send us an authorised fax or letter detailing your investor number, the additional amount you wish to invest, together with confirmation that the investment monies have been deposited into our account. Alternatively you may use an additional deposit form which can be obtained by contacting us on 131 737.

Each additional investment must be at least \$1,000. Additional units are issued on the terms and conditions set out in the PDS current at the time the application is processed.

As soon as it's reasonably practical, after each investment we will send you a statement setting out details of your investment and your balance. The relevant fees and expenses will apply to all additional investments.

#### Indirect investors

If you wish to make additional investments, please contact your master trust or wrap account operator.

#### Accessing your money

You can submit a withdrawal or switch request in writing, at any time. If your investment is below our current minimum investment of \$25,000 and you wish to make a withdrawal, you may be asked to withdraw your entire investment.

#### Payment times

We generally take up to five (5) Melbourne Business Days to process a withdrawal (including a switch). A Business Day for us is any day other than Saturday, Sunday or a bank or public holiday in Melbourne, VIC. However, for this Fund the withdrawal period provided for in the Fund's constitution is up to 30 days or longer in certain circumstances. In some circumstances, such as when there is a freeze on withdrawals, investors may not be able to withdraw their funds within the usual period upon request.

#### Distributions

The distribution period is yearly ending 30 June. Distributions will normally be made within one month after the end of a distribution period and must be made within 60 days, or as soon as possible after the Fund's audit (if any). The amount distributed to each unit holder will be based on the number of units held by the unit holder at the end of the distribution period. You should be aware that although the Fund aims to pay distributions yearly, the amount of each distribution may vary or no distribution may be payable at 30 June.

### 3. BENEFITS OF INVESTING IN THE WHOLESALE GLOBAL EQUITY – VALUE FUND

#### Significant features and benefits

The Fund invests predominantly in international shares chosen for the potential to provide capital growth. The investment strategy for the Fund is to buy shares in companies whose share price appears undervalued relative to long term earnings potential.

In line with the Fund's investment objectives, it is recommended that investors remain in the Fund for at least five years. The Fund suits investors prepared to accept a high level of volatility and risk as a trade-off for returns that might typically be expected to be above those returned by other asset classes over the longer term.

### 4. RISKS OF MANAGED INVESTMENT SCHEMES

#### All investments carry risk

Assets with the highest long term returns may also carry the highest level of short term risk, particularly if you do not hold your investment for the minimum suggested investment timeframe. Additionally, different investment strategies may carry different levels of risk, depending on the assets in which a fund invests.

When you invest in a Fund, you should be aware that:

- returns are not guaranteed – future returns may differ from past returns, and the level of returns may vary, and
- the value of your investment may vary, and there may be the risk of loss of invested capital.

The value of your investment may also be affected by the Fund-specific risks noted below and by other risks or external factors such as the state of the Australian and world economies, consumer confidence and changes in laws and regulations including tax laws and government policies relating to managed investment schemes.

Other factors such as your age, the length of time you intend to hold your investment, other investments you may hold, and your personal risk tolerance will affect the levels of risk for you as an investor. As the risks noted in this section do not take factors such as these into account, you should consider obtaining appropriate financial advice before making a decision about investing or reinvesting in the Fund.

## Risks specific to the Fund

Risks specific to the Fund may include or be associated with:

- **share market investments** – the value of the Fund’s investment in listed securities may decrease or be more volatile as a result of adverse share market movements.
- **companies** – factors such as management changes may affect a company’s performance.
- **investment management** – there is a risk that the investment manager will not perform to expectation or factors such as changes to the investment team or a change of investment manager may affect the Fund’s performance.
- **derivatives** – the use of derivatives may magnify any losses incurred.
- **international investments** – including losses related to currency exchange rates, hedging, and changes in the state of the Australian and world economies.
- **securities lending** – there is a risk of capital loss, as a result of the borrower failing to return the borrowed securities in a timely manner and as a result of market movements that impact collateral.

// You should read the important information about risks before making a decision. Go to [www.ampcapital.com/pds/auwgv/m](http://www.ampcapital.com/pds/auwgv/m) – select ‘Incorporated information’ from the PDS information menu, and go to ‘Risks of investing’. The material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

## 5. HOW WE INVEST YOUR MONEY

### The Fund

The Fund typically holds a diversified portfolio of global stocks in listed companies with characteristics such as a market capitalisation in excess of US\$750 million for developed market countries, US\$200 million for emerging market countries and attractively priced relative to their future earnings power.

The Fund may be suitable for investors prepared to accept a high level of volatility and risk as a trade-off for returns that might typically be expected to be above those returned by other asset classes over the longer term.

The portfolio may not suit your particular circumstances. You should speak to your financial adviser to determine which investment portfolio best meets your goals and objectives.

### Asset allocation

Asset class	Target	Range
Global equities <sup>(1)</sup>	100%	96-100%
Cash	0%	0-4%

### Investment return objective

To provide investors with long term capital value and to outperform the MSCI World Index ex Australia Index (net dividends reinvested) (benchmark index) in Australian dollars after costs and over rolling five year periods.

1 Maximum 5% exposure to emerging market countries

## Suggested minimum investment timeframe

5 years

### Summary of risk level

#### Risk band

1	2	3	4	5	6	7
---	---	---	---	---	---	---

#### Risk label

Very low	Low	Low to medium	Medium	Medium to high	High	Very high
----------	-----	---------------	--------	----------------	------	-----------

The Fund’s risk band and risk label are based on an estimation that the number of negative annual returns over any 20 year period would be within the range of 6 or greater. Information about the methodology used for calculating the risk level can be obtained by contacting us. This summary is not a complete description of the risks of investing in the Fund.

Consequently, before choosing to invest or reinvest in the Fund, you should read the Fund’s PDS and incorporated information, and consider factors such as the likely investment return, the risks of investing and your investment timeframe.

We may change the Fund’s investment return objective or investment approach, from time to time, if we consider it to be in the best interests of investors. If we do so, we will advise investors.

In section 5 only, the term ‘we’ refers to the Responsible Entity.

// You should read the important information about how we invest your money before making a decision. Go to [www.ampcapital.com/pds/auwgv/m](http://www.ampcapital.com/pds/auwgv/m) – select ‘Incorporated information’ from the PDS information menu, and go to ‘Fund features’. The material relating to how we invest your money may change between the time when you read this PDS and the day when you acquire the product.

## 6. FEES AND COSTS

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneySMART.gov.au](http://www.moneySMART.gov.au)) has a managed funds fee calculator to help you check out different fee options.

## Summary of fees

### Overview of fees and costs

Table 1 provides an overview of the costs of acquiring units in the Fund, and the fees and costs charged in relation to your investment.

These fees may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. For this Fund, these fees are paid out of the Fund's assets, and are reflected in the unit price.

You can use this information to compare the Fund's fees and costs with those of other funds.

Unless otherwise stated, the fees shown in this section are inclusive of Goods and Services Tax (GST) less Reduced Input Tax Credits (RITCs) or other input tax credits claimable, rounded to two decimal places.

Unless otherwise specified, all dollar amounts are Australian dollars.

**Table 1**

Type of fee or cost	Amount
<b>Fees when your money moves in or out of the managed investment product</b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
<b>Management costs<sup>1</sup></b>	
The fees and costs for managing your investment	0.99% pa of the Fund's net assets

1. Management costs are expressed as a percentage of the Fund's net assets. Management costs are made up of a management fee of 0.95% pa, recoverable expenses of 0.04% pa and estimated other indirect costs of 0.00% pa. The sum of these figures may differ to the total management costs, due to rounding. The recoverable expenses are the expenses reimbursed from the Fund in the previous financial year. Refer to the 'Additional explanation of fees and costs' in the 'Incorporated information' for further details.
2. Transactional and operational costs and borrowing costs may apply. Refer to 'Additional explanation of fees and costs' in the 'Incorporated information'.
3. See Table 2 for an example of the calculation of the management costs.

### Important

Fee amounts shown in this PDS are the fees direct investors are charged when investing through this PDS.

If you are an indirect investor, please contact your financial adviser or platform operator for details of the fee amounts relating to your investment in the Fund.

### Payments to your financial adviser

Fees may be payable to your financial adviser. These fees are additional to the fees noted in Table 1 (refer to the Statement of Advice provided by your adviser).

Client advice fees are only available to direct investors. Indirect investors should contact their master trust or wrap account operator for information about the availability of this arrangement.

Your financial adviser is a valuable resource available to you as they can help you understand how investments work and how to get the most from your investment. Your adviser can also provide advice and guidance about other financial and insurance matters.

## Changes to fees

The Responsible Entity may change the fees noted in this PDS at its discretion and without the consent of investors. For example, fees may be increased where increased charges are incurred due to changes to legislation, where increased costs are incurred, if there are significant changes to economic conditions, or if third parties impose or increase processing charges. However, we will give investors 30 days' written notice of any intention of the Responsible Entity to increase the existing fees or introduce performance fees or contribution or withdrawal fees.

## Example of annual fees and costs

Table 2 gives an example of how the fees and costs in the Fund can affect your investment over a one year period. You should use this table to compare this product with other managed investment products. The fees and costs shown in this table are an example only and are not additional to the fees and costs described in Table 1.

**Table 2**

Example – Wholesale Global Equity – Value Fund		Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
Plus Management costs <sup>1</sup>	0.99% pa of the Fund's net assets	<b>And</b> , for every \$50,000 you have in the Fund you will be charged \$495 <sup>2</sup> each year.
Equals Cost of the Fund <sup>3</sup>		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged a fee of: <b>\$495<sup>2</sup></b> <b>What it costs you will depend on the fund you choose and the fees you negotiate.</b>

1. Refer to Table 1 for the components of the management costs.
2. This cost does not include the management costs charged on the additional \$5,000 investment. The additional management costs would be \$49.50 if you had invested the \$5,000 for a full 12 months.
3. This cost does not include any advice fees paid to your financial adviser.

**// You should read the important information about fees and other costs before making a decision. Go to [www.ampcapital.com/pds/auwgv/m](http://www.ampcapital.com/pds/auwgv/m) – select 'Incorporated information' from the PDS information menu, and go to 'Fees and costs'. The material relating to fees and other costs may change between the time when you read this PDS and the day when you acquire the product.**

## 7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a managed investment scheme is likely to have tax consequences for investors. Generally, managed investment schemes do not pay tax on behalf of investors in the scheme, and investors are assessed for tax on the net income generated by their investment in the scheme.

You are strongly advised to seek professional taxation advice before you invest or deal with your investment, as the taxation treatment of your investment will be specific to your circumstances and to the nature of your investment.

**// You should read the important information about taxation before making a decision. Go to [www.ampcapital.com/pds/auwgv/m](http://www.ampcapital.com/pds/auwgv/m) – select 'Incorporated information' from the PDS information menu, and go to 'Taxation'. The material relating to taxation may change between the time when you read this PDS and the day when you acquire the product.**
