1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Colchester Global Investors (Singapore) Pte. Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Colchester Global Investors (Singapore) Pte. Ltd.

In 2012, the Investment Manager was established in Singapore as a wholly owned subsidiary of Colchester Global Investors Limited.

Colchester Global Investors Limited, the parent company of the Investment Manager, was established in London in 1999 as a specialist global sovereign fixed income manager. It is an independently owned, established market participant with experienced fund management professionals who have enjoyed long and successful careers managing global bonds with reputable institutions. Each entity or both together shall be referred to as "Colchester" as the context requires. Colchester has had mandates in the Australian market since 2003.

The Investment Manager has delegated certain investment management functions to Colchester Global Investors Limited, which will make investment decisions in relation to the Fund. At the heart of Colchester's philosophy is the belief that investments should be valued in terms of the income they will generate in real terms. Colchester generally seeks to invest primarily in sovereign debt securities that possess fundamental value. Colchester believes securities that (i) possess high yields after allowing for the impact of estimated future inflation and (ii) are denominated in currencies that are either undervalued, or of a reasonable value according to purchasing power parity analysis, typically possess fundamental investment value. Colchester carries out financial analysis on countries and individual issues in order to assess the issuer's respective financial strengths and vulnerabilities. Having made a fundamental real assessment of the value of all country bond markets and currencies in the global opportunity set, Colchester then builds optimal portfolios seeking to maximise returns. Colchester is a seed investor in the Fund, but may redeem its investment at a later date.

Colchester Global Investors (Singapore) Pte. Ltd. is exempt from the requirement to hold an Australian Financial Services Licence under the Corporations Act in respect of the financial services it provides to wholesale investors in Australia and is regulated by the Monetary Authority of Singapore under Singaporean laws which differ from Australian laws.

2. How the Colchester Global Government Bond Fund - Class I works

The Fund is a registered managed investment scheme and is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Investors receive units when they invest in the Fund. Different classes of units may be issued. These include the Class I units. Certain currency transactions may be taken into account in relation to particular classes of units. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give the investor an interest in any particular asset of the Fund.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum investment amount for the Fund is \$1,000,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Colchester Global Investors Unit Registry,
GPO Box 804,
Melbourne VIC 3001

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is nil.

The Responsible Entity will determine that particular assets and liabilities associated with currency transactions associated with Class I units are treated as class assets and class liabilities. These will be taken into account in determining the Application Price.

The Buy Spread will be reviewed periodically and may change in certain circumstances to counter the impact of dealing costs incurred by selling and purchasing underlying assets. The Responsible Entity has the discretion to change the Buy Spread without providing notice. Please call the Investment Manager on +613 9046 4040 in regards to the current Buy Spread.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment is \$100,000. The Responsible Entity may alter or waive this amount at any time in accordance with the Constitution.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution. The allocation of the distributable income to Class I is based on the relative value of the Class I units, after taking into account certain adjustments made for currency transactions and on the number of units held by the investor at the end of the distribution period.

The Responsible Entity will determine that particular assets and liabilities associated with currency transactions associated with the Class I units are treated as class assets and class liabilities. These will be taken into account in determining the distribution.

The Responsible Entity usually pays a distribution in respect of Class I units quarterly at the end of March, June, September and December. Distributions are calculated on the last day of each period end (31 March, 30 June, 30 September and 31 December), and are normally paid to investors within 30 days of the period end, however the distribution at 30 June may take longer. The Responsible Entity may change the distribution frequency without notice. There may be tax consequences associated with receiving distributions, including being assessed for tax purposes on income or net realised capital gains. Distributions may also result in adjustments to the cost base, for tax purposes, of your units. An investor that invests in the Fund just prior to a distribution date may receive some of its investment back immediately as a distribution payment.

Australian Investors in the Fund can indicate a preference to have:

- their distribution reinvested back into the Fund; or
- their distribution directly credited to their nominated Australian domiciled bank account.

Australian investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (5% or more of the units on issue), their withdrawal proceeds may be taken to include a component of distributable income. Further, where there is a large application for units on any one day, the Responsible Entity may determine to calculate and pay a special distribution of Class I units.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Colchester Funds New Zealand Wholesale Investor Fact Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Colchester Global Investors Unit Registry,
GPO Box 804,
Melbourne VIC 3001

The minimum withdrawal amount is \$100,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 5 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is nil.

The Responsible Entity will determine that particular assets and liabilities associated with currency transactions associated with Class I units are treated as class assets and class liabilities. These will be taken into account in determining the Withdrawal Price.

The Sell Spread will be reviewed periodically and may change in certain circumstances to counter the impact of dealing costs incurred by selling and purchasing underlying assets. The Responsible Entity has the discretion to change the Sell Spread without providing notice. Please call the Investment Manager on +613 9046 4040 in regards to the current Sell Spread.

The Withdrawal Price will vary as the market value of assets in the class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the class falls below \$500,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Colchester Global Government Bond Fund - Class I

The Fund is actively managed in accordance with Colchester's investment philosophy as outlined in Section 5. The Fund aims to generate income and increase the amount invested by investing in a globally diversified portfolio of government bonds and currencies. An associated objective is the preservation and enhancement of principal. The Fund may also use forward foreign exchange transactions (including non-deliverable foreign exchange transactions), as further described in Section 5. Colchester believes both bond and currency markets can be valued in terms of their real returns on offer, thereby providing an indication of their relative attractiveness or otherwise.

Investing in the Class I units provides investors with the following significant features and benefits:

- Access to Colchester's investment management expertise in relation to sovereign bonds;
- Access to investment opportunities in offshore markets that Colchester considers attractive;
- Prudent risk management;
- Access to investment opportunities and diversification through pooling of assets that may not be available to individual investors;
- Potential for a regular income stream by way of quarterly distributions (the Responsible Entity may change the distribution frequency without notice); and
- Potential for diversification when employed in conjunction with other asset classes and investment styles.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity or Colchester do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Security specific risk

The risk associated with an individual asset. For example, loss of value arising where a bond issuer cannot pay principal or interest when due.

Currency risk

For unhedged investments in global assets, a rise in the Australian dollar relative to other currencies will negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces.

Derivatives risk

The Fund will use forward foreign exchange transactions (including non-deliverable foreign exchange transactions) for hedging purposes, efficient portfolio management purposes, and/or for investment purposes. For a full definition of Derivatives risk, please refer to the Colchester Reference Guide.

Market risk

The risk that the market price of an asset will fluctuate as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events and environmental and technological issues. This risk may have different impacts on each type of asset, investment style and investor.

The Fund is also subject to the risk of the failure of any of the financial markets on which the securities are traded or of a clearing house.

Liquidity risk

It may be difficult to value, and it may not be possible to sell, certain investments, types of investments, and/or investments in certain segments of the market, and the Trust may have to sell certain of these investments at a price or time that is not advantageous in order to meet redemptions or other cash needs.

Investment selection risk

Colchester may make investment decisions that result in low returns or loss of capital invested. This risk is mitigated to some extent by the knowledge and experience of Colchester.

Emerging Markets risk

Investment risk may be particularly high when the Fund invests in emerging market securities. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

Non-Diversification risk

Focusing investments in a small number of securities issuers, industries or countries increases risk. Funds that invest in a relatively small number of securities issuers are more susceptible to risks associated with a single economic, political or regulatory occurrence than more diversified funds might be. Some of those securities issuers also may present substantial credit or other risks.

Key personnel risk

The Investment Manager is dependent to some extent upon the expertise of its management team. Consequently, the Fund's performance could be adversely affected if key members of the management team do not continue to provide their services to The Investment Manager.

Interest rate risk

Interest rate risk is the risk that fixed income securities and other instruments in the Fund's portfolio will decline in value because of an increase in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Fund, directly or indirectly, is likely to decrease.

Cross Class liability risk

Separate classes of the Fund are not separate legal entities and the assets of each class will not be segregated. All of the assets of the Fund are available to meet all of its liabilities, regardless of the class to which such assets or liabilities are attributable. In practice, cross class liability will usually only arise where any separate class becomes insolvent and is unable to meet all of its liabilities. In this case, all of the assets of the Fund attributable to other separate classes may be applied to cover the liabilities of the insolvent classes. If losses or liabilities are sustained by a class in excess of the assets attributable to such class, such excess may be apportioned to the other classes. The assets attributable to any one class will not be isolated from the liabilities attributable to other classes, and to the extent that the assets of one particular class are insufficient to satisfy the liabilities attributable to such class then the assets of other classes may be charged with such liabilities.

Further Reading...

You should read the important information in the Colchester Reference Guide "Additional information about risks of managed investment schemes" section, with more information on risks that may apply. The Material relating to risks may change between the time when you read this PDS and the day when you acquire the product.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to generate income and increase the amount invested by investing in a globally diversified portfolio of government bonds and currencies. Colchester does not guarantee the repayment of capital or the performance of the Fund or make any representation concerning any of these matters.

Benchmark

The FTSE World Government Bond Index hedged in Australian Dollars, formerly, the Citigroup World Government Bond Index.

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 5 to 7 years.

Risk level of the Fund

Moderate.

There is a moderate level risk of loss of investment over the suggested investment horizon.

Investor suitability

The Fund may be suitable for investors seeking to have an exposure to global fixed income markets.

Investments held/investment strategy/investment guidelines and restrictions

The Fund generally will acquire positions in debt securities, such as fixed and floating rate bonds, inflation-indexed bonds, zero-coupon bonds, discount bonds, eurobonds, global bonds and yankee bonds, and in currencies of countries that are rated Investment Grade. Colchester may, in its sole discretion, determine the weightings of such debt and currency investments. In the event that such acquired investments are downgraded to below Investment Grade, Colchester will review the securities in question and may decide, in its sole discretion, to continue to hold such securities, provided that no more than 20% of the NAV of the Fund may be exposed to below Investment Grade securities. In the event of a subscription into the Fund, the Fund may purchase further securities in the name of such downgraded issuer to ensure that the same proportion of such securities continues to be held by the Fund.

The Fund may invest in developed and emerging markets.

Colchester will seek to achieve the investment objective of the Fund principally by investing in a portfolio of debt obligations issued by: (i) world governments, their agencies and instrumentalities and government owned corporations; (ii) state, provincial, county, and city governments, as well as those of public utilities and other quasi-governmental bodies; (iii) supranational entities; and (iv) entities guaranteed by any of (i), (ii) and (iii) above that are listed or traded on regulated markets.

Forward foreign exchange transactions (including non-deliverable foreign exchange transactions) may be used by the Fund to reduce the risk of adverse market changes in exchange rates or to increase exposure to foreign currencies or to shift exposure in order to address foreign currency fluctuations between currencies. Both long and short currency positions may be established through the use of currency forwards (including non-deliverable currency forwards) in global currencies and may be held without owning securities denominated in such currencies. Typically positions are balanced such that the sum of currency active long positions matches the sum of currency active short positions. Colchester will normally seek to hedge the Class I's foreign currency exposure between 70% to 130% to Australian Dollars. The sum of all active foreign currency long exposures shall not exceed 60% of the net asset value of the assets attributable to the Class I units.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

It is difficult to incorporate labour standards or take environmental, social or ethical considerations into account when making investment decisions in respect of a global government bond portfolio. To the extent that it is possible to do so, Colchester recognises the effect of these factors within its country balance sheet analysis, which is incorporated within its investment decision making process.

Fund performance

Up to date information on the performance of the Fund will be available online at www.eqt.com.au/insto or by calling Colchester on +61 3 9046 4040. Past performance is not necessarily a guide to future performance.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	Amount
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 0.60% p.a. of the value of your Class I units of the Fund ² Indirect costs: 0.04% p.a. of the value of your Class I units of the Fund ³

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

³ The indirect costs are calculated and incorporate estimated amounts with reference to the relevant costs incurred during the financial year ended 30 June 2018. See "Indirect costs" below for more information.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund. Management costs include management fees and indirect costs.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be met by Buy/Sell Spreads).

Management fees

The management fees of 0.60% p.a. of the value of your Class I units of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Indirect costs

Indirect costs include fees and other management costs (if any) arising from underlying funds and, if applicable, a reasonable estimate of the cost of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. Indirect costs are reflected in the unit price of the Fund and borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The estimated components of the Fund's indirect costs are based on the financial year ended 30 June 2018.

Actual indirect costs for future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eq.t.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is nil upon entry and nil upon exit. The dollar value of these costs based on an application or a withdrawal of \$1,000,000 is \$0 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

For the financial year ended 30 June 2018, the total transaction costs for the Fund are estimated to be 0.20% of the NAV of the Fund, of which 0% of these transaction costs will be recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.20% p.a. However, such costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients and New Zealand Wholesale Investors.

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus		
Management costs	0.64% p.a.	And , for every \$1,000,000 you have in the Fund you will be charged \$6,400 each year comprising:
Comprising:		
Management fees:	0.60% p.a.	\$6,000
Indirect costs:	0.04% p.a.	\$400
Equals		
Cost of Fund		If you had an investment of \$1,000,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$6,400* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$1,000,000 balance only. Indirect costs are not a fee earned by or paid to the Responsible Entity or the Investment Manager.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

Further reading...

You should read the important information in the Reference Guide about indirect costs under the "Additional information on fees and costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Colchester Global Investors Unit Registry,
GPO Box 804,
Melbourne VIC 3001

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

No cooling off period applies to the offer made in this PDS, as the units offered under this PDS are only available to Wholesale Clients.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
