# **HOW THE FUND INVESTS**

# THE FUND INVESTS IN COMPANIES PROVIDING SOLUTIONS TO SUSTAINABILITY CHALLENGES

#### 2. HOW THE PENGANA WHEB SUSTAINABLE IMPACT FUND WORKS

The Pengana WHEB Sustainable Impact Fund is a simple managed investment scheme, registered under the Corporations Act 2001 (**Corporations Act**). By investing in a simple managed investment scheme, your funds are added to those of other investors to create a pool of capital. The capital is invested under the direction of Pengana, in a range of investments authorised under the Fund's Constitution. The duties and responsibilities of Pengana and the general operations of the Fund are set out in its Constitution and the Corporations Act.

#### UNITS AND UNIT PRICES

Investors in the Fund are issued units. Each unit is valued based on the assets of the investments held by the Fund and units are priced each business day. The price of units will change daily as the market value of the assets in the Fund rises and falls.

The number of units issued to an investor is dependent on the Entry Price (also known as the Application Price) of the Fund for that particular day. The value of your redemption is dependent on the Exit Price (also known as the Redemption Price) of the Fund for that particular day.

Applications and redemptions are processed each day. If your application or redemption request is received and identified by 2pm Sydney time it will be processed using the Entry or Exit Price at the close of business that day. If it is received and identified after 2pm Sydney time it will be processed using the Entry or Exit Price at the close of business on the following business day.

The daily unit prices are available on our website www.pengana.com.

You can increase your investment at any time by acquiring more units in the Fund. Generally, you can decrease your investment by disposing of some of your units, although in certain circumstances (such as a freeze on withdrawals) you may have to wait a period of time before you can reduce your investment.

#### MAKING AN INVESTMENT

Initial investments may be made by sending us a fully completed and signed Application Form. We accept application monies by either cheque or electronic funds transfer.

Investors can increase their investment, acquiring further interest in the Fund via:

- cheque or electronic funds transfer and submission of an Additional Investment Form, or
- the Regular Savings Plan, or
- reinvestment of distributions.

The minimum initial investment is \$10,000 and the minimum additional investment is \$5,000. The Regular Savings Plan minimum contribution is \$500 per month.

#### MAKING A REDEMPTION

You can redeem all or part of an investment by notifying us of your instructions by sending us a completed Redemption Request Form.

The minimum redemption is \$5,000 or the entire investment balance if the redemption would cause the unitholder's account balance to fall below \$10,000.

Withdrawal payments will generally be made within 5 business days although the Fund's Constitution allows up to 30 days for payment to be made. In addition, this period may be extended in certain circumstances outside our control. In certain circumstances, such as when there are adverse market conditions, we may suspend withdrawals. We may also process withdrawal requests in instalments over a period of time.

In circumstances where withdrawals are delayed, suspended or being paid in instalments, the unit prices used for a withdrawal may be those applicable to the day the withdrawal is effected, rather than the time the withdrawal request is received.

Delays in payment may occur during the distribution period (post 30 June) due to calculating post-distribution prices.

#### DISTRIBUTIONS

Net income, when it is available, will be distributed to unitholders as soon as reasonably practicable after 30 June each year.

The net income is broadly calculated by deducting expenses and fees from the income. The income of the Fund may include dividends, interest and net realised gains from the sale of investments.

You should read the important additional information about "How the Pengana WHEB Sustainable Impact Fund works" in section 2 of the Fund Product Guide before making a decision to invest in the Fund. Go to pengana.com. The material relating to these matters may change between the time you read this PDS and the day when you acquire the product.

#### 3. BENEFITS OF INVESTING IN THE PENGANA WHEB SUSTAINABLE IMPACT FUND

#### SIGNIFICANT FEATURES

#### Investment strategy

The Fund invests in a globally diversified portfolio of companies with activities identified by WHEB as providing solutions to the challenges of sustainability and supporting the transition to a zero carbon more sustainable economy.

The Fund's portfolio holds predominantly developed market listed equities. The strategy features active stock-picking with individual stocks being selected through a rigorous 'bottom-up' stock-by-stock fundamental research process with a focus on impact.

#### Multi-thematic investment approach

Fund investments address nine sustainability themes – five of these are environmental (cleaner energy, environmental services, resource efficiency, sustainable transport, and water management) and four are social (education, health, safety, and well-being).

Impact analysis is at the core of the investment process, with WHEB's proprietary impact engine enabling the evaluation and comparison of impact both within and across industries. Investments target the most impactful and high-quality businesses that can be acquired at reasonable prices.

# Integrated environmental, social and governance (ESG) analysis

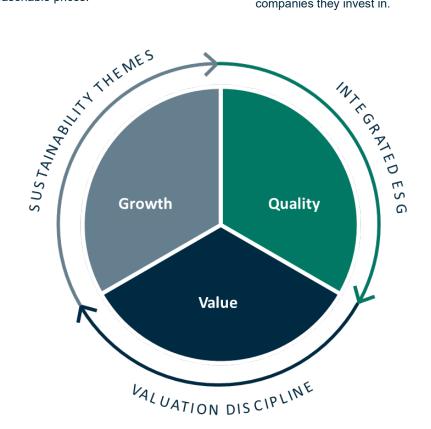

WHEB believe that ESG issues have a material impact on the future success and profitability of businesses. ESG analysis is conducted by the investment team and is integrated with financial analysis into the fundamental analysis of business quality. WHEB's analysis identifies companies that are able to manage ESG issues effectively as part of managing a highquality business. Herein, labour standards are considered and taken into account in the selection, retention or realisation of investments.

WHEB's approach to ESG issues in their investment process is to consider these issues at all stages of the investment process, from universe creation to portfolio construction, and as an integral part of an assessment of the quality of businesses overall.

#### Active company engagement

WHEB engages directly with companies and other stakeholders in order to:

- Generate additional insights into company practice or a particular issue, which in turn feeds into their investment decisions; and/or
- Exercise influence in order to improve corporate management and performance, or the direction of future policy in order to promote sustainable development and to create favourable operating environments for the companies they invest in.

#### SIGNIFICANT BENEFITS

# Access to WHEB's knowledge and management expertise

WHEB is a well-established boutique fund manager with a strong commitment to ethics, independence, and transparency in profitable investing with positive impact. WHEB's highly experienced investment professionals have over 15 years of investment experience on average.

#### Measure your positive impact

WHEB produces an Annual Impact Report which measures and reports on the positive social and environmental impact associated with the Fund's investments. An impact calculator measures the impact associated with your investment.

Additionally, we publish detailed fund and thematic commentary, voting and engagement activity, as well as lists of our portfolio companies on a quarterly basis.

#### Access to a diversified portfolio

The Fund invests in a diversified portfolio of listed companies globally.

## Thought leader in sustainable and impact investing

WHEB is actively involved in organisations at the leading edge of sustainable and responsible investment, sharing thinking and promoting sustainability issues.

You should read the important additional information about "Benefits of investing in the Pengana WHEB Sustainable Impact Fund" in section 3 of the Fund Product Guide before making a decision to invest in the Fund. Go to pengana.com. The material relating to these matters may change between the time you read this PDS and the day when you acquire the product.

#### 4. RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risk. Different investment strategies carry different levels of risk depending on the underlying mix of assets that make up the strategy. Usually, assets with the potential for the highest long-term returns carry the highest levels of short-term risk.

It is important for you to carefully consider the risks of investing in the Fund and to understand that:

- the value of your investment will go up and down,
- investment returns will vary and future returns may differ from past returns,
- returns are not guaranteed and you may lose some or all the money you invest,
- laws affecting managed investment schemes may change in the future, and
- your level of risk will vary depending on a range of factors including your age, investment time frames, where other parts of your wealth are invested and your risk tolerance.

The significant risks of investing in the Fund are described below, but there could be other risks that affect the performance of the Fund. You should seek your own professional advice on the appropriateness of this investment to your circumstances.

**Individual Investment Risk:** The value of the Fund's portfolio may be affected by unexpected changes in the value of the

investments in the portfolio. Such changes may be due to unexpected company specific issues that impact the market value of the individual investments.

**Market Risk:** Economic, technological, political or legal conditions, and market sentiment change can affect the value of the investments in the Fund.

International Investing Risk: The Fund primarily holds investments in global securities listed on approved exchanges. Risks of international investing may include currency fluctuations, foreign tax, different market and settlement practices, adverse political and economic developments, limited liquidity, foreign exchange controls and investment restrictions. Regulatory intervention can also materially affect the Fund's ability to affect its investment strategy and adversely affect the Fund's performance.

**Currency Risk:** The Fund will invest in countries other than Australia. If the currencies of those countries change in value relative to the Australian dollar, the value of these investments may change and may negatively affect the Fund's return. Additionally, any hedging of foreign exchange exposures undertaken by the Fund may not provide complete protection from adverse currency movements or a counterparty to such hedging transactions may default on their obligations to the Fund.

#### Counterparty and Broker/Custodian

**Credit Risk:** There is a risk of loss caused by a counterparty to a transaction with the Fund, including the custodian (BNP Paribas), defaulting on their financial obligations, failing to perform their contractual obligations or becoming insolvent. A counterparty defaulting on its obligations could result in a default payment, which may subject the Fund to substantial losses and cause the net asset value of the Fund to fall.

**Liquidity Risk:** This is the risk that an investment may not be able to be sold quickly enough to prevent or minimise a loss. A lack of liquidity may also affect the amount of time it takes us to satisfy withdrawal requests.

**Derivatives Risk:** A small investment in derivatives may control a much greater value of underlying assets. This magnifies potential profits and losses, as measured against the outlay. The Fund may also be exposed to counterparty risk, i.e. risk in connection with the parties on the other side of derivatives contracts entered into for the Fund.

**Fund Risk:** Risks particular to the Fund include the risk that the Fund could terminate and that fees and expenses payable by the Fund could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund or the consequences of investments and withdrawals by other investors.

**Investment Manager Risk:** Like other investment managers, WHEB's investment approach directly impacts the value of this investment and performance is likely to vary in different market conditions. No single investment approach performs better than all others in all market conditions. Changes in key personnel within Pengana and/or WHEB may also impact the Fund's returns.

<sup>1</sup> These are indicative asset allocation ranges for the Fund. If market movements, investments into or withdrawals from the Fund, or changes in the nature of an investment cause the Fund to move outside these indicative ranges, this will be addressed by us as soon as reasonably practicable.

#### **INVESTMENT PHILOSOPHY**

We live in a rapidly and profoundly changing world. A growing global population aspires to continually rising living standards for both current and future generations. Physical boundaries of resource scarcity are now being breached, driving a need to fundamentally change our systems. WHEB believes that the global economy is in the early stages of a fundamental transition to being zero carbon and sustainable.

It is our conviction that this transition will persist for decades and create real market opportunities for companies providing solutions to mitigate or ease the challenges that these forces create. We also believe that companies which create positive social and/or environmental impacts, through their products and services and the manner in which they conduct their business, will ultimately enjoy structurally growing marketplaces and relatively resilient profitability.

WHEB have selected nine investment themes which are used to focus their attention on companies that provide solutions to sustainability challenges and which therefore have the potential to significantly grow their earnings.

#### **INVESTMENT PROCESS**

The Fund's investment team builds and maintains a universe of companies which provide solutions to sustainability challenges and are categorised within WHEB's nine sustainable investment themes. To qualify for WHEB's universe, companies need to have a market capitalisation of at least US\$2 billion, and at least 50% of revenues directly exposed to WHEB's themes. This universe was first established in 2005, is reviewed on an ongoing basis, and includes around 400 to 500 companies.

WHEB selects the best ideas from their universe for further in-depth fundamental analysis. Ideas are identified through a combination of thematic thinking, which builds a picture of sustainability developments and those companies that can benefit the most from them, and quantitative screens, which are used to identify high quality companies.

Potential investments are then evaluated using a differentiated and systematic approach that integrates sustainability and financial analysis at every stage of the fundamental analysis process:

 Our proprietary 'impact engine' assesses the overall impact intensity of products and services offered by companies. It builds on existing market frameworks and is intended to capture the different dimensions of positive impact:

#### Importance of Outcomes

How vulnerable is the beneficiary?

How critical is the outcome to the beneficiary?

#### Change in Outcomes

How large is the impact compared to baseline?

How widely applicable is the product?

#### **Contribution to Outcomes**

How central is the product impact in the outcome?

How unique is the product's contribution?

 Our financial analysis assesses the fundamental quality of a company's policies and operational performance. The analysis considers five aspects of business operations: market attractiveness, competitive position, value-chain operations, management quality, and growth strategy.

Researched companies are given an overall score and considered for investment, as long as the valuation is appropriate for the level of quality determined based on WHEB's disciplined approach. Position sizes are usually between 1.5% and 2.9% of the portfolio, and all members of the investment team are involved in the monitoring and analysis of the total portfolio. The expected holding period is between 4 and 7 years. Positions are usually sold if they are no longer considered to be attractively valued, or if corporate quality or the growth opportunity has changed materially.

The expected outcome of the investment process is a portfolio which is exposed to structurally growing markets, through companies which have positive social and environmental impacts underpinning this growth.

The portfolio will have materially different exposures when compared with broad global equity indices, and is expected to be biased to sustainable, mid-cap, growth, and higher quality companies.

#### 6. FEES AND COSTS

### **DID YOU KNOW?**

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

## **TO FIND OUT MORE:**

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your investment, from the returns on your investment or from the Fund's assets as a whole.

You should read all the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare the fees and costs with those of other investment funds.

If you are investing in the Fund via an IDPS, you will need to consider the fees and other costs of the IDPS when calculating the total cost of your investment.

If you consult a financial adviser you may also pay an additional fee that will be set out in the Statement of Advice between you and the financial adviser.

| TYPE OF FEE OR COST  | AMOUNT     |
|--|------------|
| Fees when your money moves in or out of the Fund   |            |
| Establishment fee<br>The fee to open your investment   | Nil        |
| Contribution fee<br>The fee on each amount contributed to your investment  | Nil        |
| <b>Withdrawal fee</b><br>The fee on each amount you take out of your investment  | Nil        |
| Termination fee<br>The fee to close your investment  | Nil        |
| Management costs <sup>2</sup><br>The fees and costs for managing your investment   |            |
| Management Fee <sup>3</sup><br>Paid to Pengana for investing the assets of the Fund, represented as a percentage of the net asset value of the<br>relevant class of units in the Fund (Class)                                | 1.35% p.a. |
| Estimated Indirect Costs<br>Calculated on the basis of the Pengana's reasonable estimate of such costs attributable to the Class or<br>interposed vehicle's assets once the cost is incurred and reflected in the unit price | 0.00%      |

<sup>2</sup> See 'Additional explanation of fees and costs' paragraphs later in section 6 of this PDS for further details. The management costs are quoted inclusive of Goods and Services Tax ('GST') and net of any reduced input tax credits ('RITC') at the prescribed rates.

<sup>3</sup> The management fee may in some cases be negotiated with direct wholesale investors. Please refer to the 'Management fee may be negotiated with direct wholesale clients section in the Fund Product Guide.

#### **EXAMPLE OF ANNUAL FEES AND COSTS**

This table gives an example of how the fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

#### EXAMPLE – BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING YEAR<sup>5</sup> Contribution fees Nil Not applicable And, for every \$50,000 you have in the Fund you will be charged \$675 each year: Management Fee -1.35% p.a. of net assets of the Class \$675 PLUS Management costs<sup>6</sup> Estimated indirect costs \$0 0.00% If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then for that year you would be charged fees of EQUALS Cost of Fund \$675. What it costs you will depend on the fees you negotiate with the Fund, your IDPS Operator, or your financial adviser.

<sup>5</sup> Additional fees may apply. For other fees, please refer to the explanation of the 'Buy/sell spread' in the 'Additional Information on Fees and Costs' section below. For illustrative purposes, the above example assumes that Management Costs were calculated on a balance of \$50,000. It does not take account of Management Costs that would be charged on the additional \$5,000 contributed during the year.

<sup>6</sup> Management costs comprise the management fee but exclude the buy/sell spread.

This example is made for the purposes of illustrating the amount of management costs that may apply during a year invested in the Fund. There is no guarantee that the Fund will have any particular rate of return.

#### ADDITIONAL EXPLANATION OF FEES AND COSTS

#### Management costs

The Management Costs are fees and costs for investing the Fund's assets. They include fees charged by Pengana and other expenses incurred in operating the Fund such as the investment manager's fees, custody costs, registry costs, auditing fees and tax return fees. The Management Costs do not include buy/sell spreads or any abnormal expenses such as the cost of holding an investor meeting.

#### **Buy/sell spreads**

The buy spread is 0.25% and is a cost charged to acquire units in the Fund, and the sell spread is 0.25% and is a cost charged to dispose of units in the Fund. They are charged because entering or exiting the Fund necessitates the buying or selling of the Fund's investments, which will incur transaction costs. The spreads are based on estimates of the average transaction costs incurred by the Fund. The estimates will be reviewed and set by Pengana from time to time.

The buy/sell spread is an additional cost incurred directly by an investor. The costs aim to ensure that other investors do not pay the costs associated with an investor entering or exiting the Fund. The buy/sell spread is not a fee paid to either Pengana or WHEB – it is retained in the Fund to cover costs associated with buying and selling the Fund's investments.

#### Changes to fees and costs

We may vary fees or introduce new fees up to the maximums described in the constitution without your consent. If you invest directly in the Fund, we will give you 30 days' notice of increases in fees or costs. No notice will be given in respect of changes to the buy/sell spreads. ASIC provides a fees calculator on its website www.moneysmart.gov.au which you could use to calculate the effects of fees and costs on your investment in the Fund.

## 

You should read the important additional information about "Additional explanation of fees and costs" in section 6 of the Fund Product Guide before making a decision to invest in the Fund. Go to pengana.com. The material relating to these matters may change between the time you read this PDS and the day when you acquire the product.

#### 7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a managed investment scheme is likely to have tax consequences. Because this PDS and the Fund Product Guide are not tax guides and tax laws are complex and change from time to time, we strongly recommend that you obtain professional tax advice in relation to your own personal circumstances. This applies whether you are an Australian resident or a nonresident for tax purposes. The Fund itself should not be liable for tax on its net earnings. Managed investment schemes do not pay tax on behalf of investors. Australian resident investors are generally subject to tax on their share on the taxable income of the Fund. This will include amounts reinvested in the Fund. Any net losses are retained by the Fund and may be used to offset future matching gains. If you buy units before a distribution, the unit price will include income accumulated in the Fund since the last distribution payment. The income that has been accumulating will be distributed and you may potentially have taxation liabilities on that income. Depending on an investor's circumstances, a revenue or capital gain or loss may arise when units in the Fund are sold or redeemed.

You do not have to tell us your TFN or ABN, but most people do. If you choose not to and you do not have an exemption, we must deduct tax at the highest personal rate, plus the Medicare levy and any other applicable Government charges, before paying any income distribution to you. We may also be required to withhold tax in relation to certain distributions made to non-resident investors.

## 

You should read the important additional information about "US Foreign Account Tax Compliance Act ("FATCA")" and "OECD Common Reporting Standard" in section 7 of the Fund Product Guide before making a decision to invest in the Fund. Go to pengana.com. The material relating to these matters may change between the time you read this PDS and the day when you acquire the product.

#### 8. HOW TO APPLY

Before completing the Application Form please ensure you have read this PDS together with the Fund Product Guide.

#### MAKING AN INVESTMENT

Initial applications for units can only be made on the current Application Form issued with this PDS. Instructions are included in the Application Form.

#### **INVESTING VIA AN IDPS**

To invest in the Fund via an IDPS, you will need to contact your IDPS and complete the relevant IDPS application form and any other documentation required by the IDPS. You will also need to contact your IDPS in relation to making additional contributions to your investment.

#### **COOLING-OFF RIGHT**

Unless you are a 'wholesale client' (as defined in the Corporations Act), direct investors have a 'cooling-off right' whereby you can change your mind about your initial investment in the Fund and ask for your money to be repaid. The coolingoff right must be exercised by writing to Pengana. Your written request must be received by Pengana in its offices within 14 days from the earlier of:

- when you receive confirmation of your investment; or
- the end of the fifth Business Day after the day on which your units were issued to you.

Your cooling-off right terminates immediately if you exercise a right or power under the terms of the Fund, such as withdrawing or transferring part of your investment. Cooling-off rights do not apply to any additional contributions you make to your investment (including those made under any distribution reinvestment election). Any repayment of your investment under the cooling-off right is subject to an adjustment for market movements (both positive and negative), taxes, buy/sell spreads, and fees and other costs referred to in section 6 of the PDS.

#### **RESOLVING COMPLAINTS**

If you have a complaint, you can contact us on +61 2 8524 9900. Our Client Services team can usually resolve complaints over the phone. Alternatively, you may write to us or email us. We will work to resolve your complaint as soon as possible. If you are not satisfied with the outcome of your complaint, you can refer the matter to the Australian Financial Complaints Authority. See www.afca.org.au for more information.

#### 1. ABOUT PENGANA INVESTMENT MANAGEMENT

Pengana Capital Limited (**Pengana, we, our, us**) (ABN 30 103 800 568) (AFSL 226566) is the responsible entity of the Pengana WHEB Sustainable Impact Fund (**the Fund**). Pengana is wholly owned by Pengana Capital Group Limited (**PCG**).

#### 2. HOW THE PENGANA WHEB SUSTAINABLE IMPACT FUND WORKS

#### **ISSUE OF UNITS**

The number of units issued to an investor is dependent on the Entry Price of the Fund for that particular day.

Units are generally allotted on the business day that Pengana receives a valid Application Form or Additional Investment Form, provided that the relevant form is received and identified by 2pm Sydney time on that business day. Any such form received and identified by Pengana after 2pm Sydney time on a business day is deemed to have been received on the next business day. Units will be issued at the Entry Price applicable for that day.

Note that an application is not considered to be valid until the application monies have been cleared. Any interest earned on application monies will not be paid to you – rather it will become an asset of the Fund.

An application for Units may not be withdrawn once submitted without Pengana's consent.

Pengana has the discretion to refuse an application. Interest is not payable on rejected application monies.

Upon receiving and accepting an application for units, Pengana will issue a transaction confirmation statement setting out the number of units issued. The confirmation statement may be issued via email and/or post.

The allocation of additional units by way of the automatic reinvestment of income is free of the buy spread.

Unitholders investing from outside Australia may experience a delay in the processing of applications due to international funds clearance.

Pengana may issue fractions of units.

#### **ENTRY PRICE**

The PDS relates to the offer of one Class of units in the Fund. Units in the Fund are issued at the Entry Price (also known as the Application Price) which is calculated as follows:

- the net asset value (NAV) of a Class reflects the value of the assets attributable to that Class at the close of business in each market in which the Fund invests less all liabilities attributable to that Class,
- the Unit Value is calculated by dividing the NAV of the Class by the number of units on issue at the close of each business day, and
- the Entry Price is calculated by adding to the Unit Value an amount equal to an estimate of the transaction cost per unit of acquiring Authorised Investments (i.e. brokerage). This transaction cost is also referred to as a buy spread.

For unitholders electing to have income automatically reinvested, the Entry Price for those units is equal to the Unit Value and does not include the buy spread.

#### EXIT PRICE

The Exit Price (also known as the Redemption Price) of units in the Fund is calculated as follows:

- the net asset value (NAV) of a Class reflects the value of the assets attributable to the Class at the close of business in each market in which the Fund invests less all liabilities attributable to the Class,
- the Unit Value is calculated by dividing the NAV of the Class by the number of units on issue at the close of each business day, and
- the Exit Price is calculated by subtracting from the Unit Value an amount equal to an estimate of the transaction cost per unit of disposing of Authorised Investments (i.e. brokerage). This transaction cost is also referred to as a sell spread.

#### UNIT PRICING DISCRETIONARY POLICY

Pengana has adopted a Unit Pricing Discretionary Policy that sets out the rules and guidelines it follows when valuing the Funds' assets. Unitholders can request a copy of the policy document by contacting Pengana.

#### MAKING AN INITIAL INVESTMENT

The minimum initial application amount is \$10,000.

An Application Form accompanies the current PDS and is also available on our website at www.pengana.com.

Investors can make initial investments by sending a duly completed Application Form and any requisite documentation in accordance with the form's instructions.

# MAKING AN ADDITIONAL INVESTMENT

Existing unitholders in the Fund may invest further amounts in that Fund of \$5,000 or more at any time.

An Additional Investment Form is available on our website at www.pengana.com.

Investors can make additional investments by sending a duly completed Additional Investment Form and any requisite documentation in accordance with the form's instructions.

Additional units may also be acquired through the reinvestment of income distributions or via the Regular Savings Plan, which has a minimum monthly contribution amount of \$500.

If you are an existing unitholder but wish to invest in another Pengana Fund you must complete a new application form.

#### DISTRIBUTION PAYMENTS

Unitholders can request to have income distributions reinvested in the Fund or paid into their bank account. Where no selection is made, we will reinvest any income back into the Fund. Payments will not be made to bank accounts in foreign countries. New Zealand investors who do not have an Australian bank account will have their distributions reinvested.

#### **REINVESTMENT IN ADDITIONAL UNITS**

Unitholders may elect to have income distributions automatically reinvested in additional units. In this case:

- additional units are issued using the post distribution Entry Price and processed on the transaction date of 30 June, and
- the Entry Price for those units is equal to the Unit Value and does not include the buy spread.

#### **REGULAR SAVINGS PLAN**

The Regular Savings Plan (**RSP**) provides an opportunity to save and accumulate long term wealth. It also allows you to benefit from averaging the cost of your units through periods of fluctuating market prices. To start a Regular Savings Plan you will need to:

- make an initial investment of \$10,000 or more,
- nominate a monthly investment amount of \$500 or more,
- complete the Regular Savings Plan section of the Application Form or the Change of Details Form.

We will debit your account on the 15<sup>th</sup> calendar day of each month or the following business day if the 15<sup>th</sup> falls on a weekend or public holiday.

Normal transaction costs apply to monthly investments. Your financial institution may charge you a fee on the monthly debit to your account.

#### MAKING CHANGES TO AN ACCOUNT

A Change of Details Form is available from our website www.pengana.com.

#### SWITCHING BETWEEN PCG FUNDS

All or part of an investment can be switched between PCG funds that use the same external fund administrator and unit registry.

Transaction costs will apply for the redemption and application components of each switch. Further, other fees such as management fees or performance fees may change as a result of a switch to another Fund as detailed in the relevant PCG fund's product disclosure statement.

To use the switching facility, please contact us via phone (+61 2 8524 9900) or email (clientservice@pengana.com).

Switching involves a disposal of the original units, which may realise a capital gain or loss for the unitholder.

If switching into a different PCG fund, the minimum initial investment amounts, for the relevant fund, will still apply.

You should consult your financial or taxation adviser before you switch your investments between PCG funds.

#### **REDEEMING AN INVESTMENT**

The minimum redemption amount is \$5,000 or the entire investment balance if the redemption would cause the unitholder's account balance to fall below \$10,000. Pengana has the right to waive the minimum redemption amount at its discretion.

A Redemption Request Form is available on our website at www.pengana.com.

Investors can make redemption requests by sending a duly completed Redemption Request Form and any requisite documentation in accordance with the form's instructions.

Where a duly completed Redemption Request Form and any requisite documentation is received and identified by Pengana by 2pm Sydney time it will be processed using the Exit Price at the close of business that day. If it is received and identified after 2pm Sydney time it will be processed using the Exit Price at the close of business on the following business day.

Once lodged, redemption requests may not be withdrawn except with our consent.

Withdrawals will generally be effected by way of redemption. Please refer to section 9 of this Fund Product Guide for further information.

Redemption payments will generally be made within 5 Business Days although the Fund's Constitution allows up to 30 days for payment to be made.

Withdrawal payments will only be made payable to the Investor and directed to the account nominated on the Investor's Initial Application Form (as updated by the Investor from time to time).

Withdrawal payments will not be made to bank accounts in foreign countries (other than New Zealand).

#### **REDEMPTION SUSPENSIONS**

We may suspend redemptions if we believe it is in the best interests of unitholders as a whole to do so or if it is not possible to calculate an Exit Price due to circumstances outside our control, e.g. market disruption.

Any redemption requests received during a period of suspension will receive the Exit Price applicable to the Business Day immediately following the end of the suspension period.

#### DEDUCTING AMOUNTS OR REDEEMING UNITS IN CERTAIN CIRCUMSTANCES

We may deduct from a withdrawal payment any amount owed under the Fund's Constitution, including taxes.

We may also redeem some or all of an investor's unitholding in the Fund to satisfy any such amounts or if we form the opinion that the unitholding is prejudicial to the interests of other investors.

#### 3. BENEFITS OF INVESTING IN THE PENGANA WHEB SUSTAINABLE IMPACT FUND

#### 4. RISKS OF MANAGED INVESTMENT SCHEMES

There is no additional information for this section.

#### 5. HOW WE INVEST YOUR MONEY

#### AUTHORISED INVESTMENTS

The Fund invests predominantly in global listed equities and in particular will invest in such equities in those sectors identified by the investment manager as providing solutions to the challenges of sustainability. Investments may however also be made in other transferable securities, money market instruments and near cash. The Fund may also invest in derivatives.

#### DERIVATIVES

Derivatives may be used to for efficient portfolio management, i.e. techniques and instruments which relate to transferable securities and approved money-market instruments and which fulfil the following criteria:

- a) they are economically appropriate in that they are realised in a cost effective way;
- b) they are entered into for one or more of the following specific aims:
  - i) reduction of risk;
  - ii) reduction of cost;
  - generation of additional capital or income for the scheme with a risk level which is consistent with the risk profile of the scheme and risk diversification rules laid down by the UK Financial Conduct Authority (FCA).

Derivatives will not be used for the purposes of leverage and the Fund's net exposure will never be short.

#### **BORROWING POWER**

Short term overdrafts (for less than one month and less than 10% of the NAV of the Fund) are allowed provided that the Fund is not overall leveraged.

The Fund's Constitution allows an amount not exceeding 30% of the value of the Fund to be borrowed, however, it is not envisaged that this level will be required.

#### ETHICAL INVESTMENTS

WHEB believes that sustainable investment and the integration of ESG issues can have a material impact on the future success and profitability of businesses. WHEB's investment strategy is focused on identifying companies that provide products and services that help to solve challenging social and environmental issues, and that are also able to manage ESG issues effectively as part of running a high quality business. WHEB's approach to sustainability and ESG issues in their investment process is to consider these issues as an integral part of an assessment of the quality of the business overall.

#### **CHANGES TO THE FUND**

Information in the PDS is up to date at the time of preparation but is subject to change from time to time. We may make changes to the Fund (and the information in the PDS) without prior notice to you where such changes are not materially adverse. This may include, but is not limited to, closing the Fund to new applications, changes to the Fund's investment objective (including benchmark), investment strategy, asset allocation and service providers. If a change is considered materially adverse, we will issue a replacement PDS.

Information that is not materially adverse and material information that is subject to the continuous disclosure requirements of the Corporations Act may be obtained in a number of ways. You should check our website www.pengana.com for the latest information or you can obtain a copy of any updated information free of charge by calling Client Service on +61 2 8524 9900. If you invest via an IDPS and you would like to receive notices of any changes to the Fund or PDS you should request this from your IDPS operator.

#### 6. FEES AND COSTS

The fees and costs outlined in the PDS and this Guide are for the Fund only.

If you are investing in the Fund via an IDPS, you will need to consider the fees and other costs of the IDPS when calculating the total cost of your investment.

This section shows the fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the Fund's assets as a whole.

<sup>1</sup> See 'Additional explanation of fees and costs' paragraphs later in this section for further details. The management costs are quoted inclusive of Goods and Services Tax ('GST') and net of any reduced input tax credits ('RITC') at the prescribed rates.

#### ADDITIONAL EXPLANATION OF FEES AND COSTS

You should read all of the information about fees and costs, as it is important to understand their impact on your investment in the Fund.

#### **Indirect Costs**

Indirect costs are any amount that Pengana knows or estimates will reduce the Class' return that are paid from the Fund or the assets of an interposed vehicle where the Class has an investment.

An interposed vehicle is a body, partnership or trust that Pengana reasonably believes has more than 70% of its assets by value invested in securities or other financial products. For example, an interposed entity includes an underlying fund.

Indirect costs include management costs of an interposed vehicle (such as performance fees, reimbursable expenses and indirect costs of the interposed vehicle) and a reasonable estimate of the costs of investing in over-the-counter (OTC) derivatives (either at the Fund's level or in interposed vehicles), which may be used by the Fund to gain exposure to the underlying assets.

The amount of indirect costs set out in the fees and costs template above is based on Pengana's knowledge of or reasonable estimate of such costs. Indirect costs may differ from the amount set out above. Indirect costs are deducted from the returns on investors' investment in the Fund or the Fund's assets as a whole. They are reflected in the unit price of the Fund and are not an additional cost to you.

#### **Reimbursable expenses**

The Constitution entitles Pengana to be reimbursed from the Fund for all costs and expenses properly incurred in acting as responsible entity or in relation to the administration and management of the Fund. The expenses may include, but are not limited to, audit fees, PDS preparation and printing costs, and custodian and registry services. However, for the life of the PDS Pengana has determined that the management fee will cover all fees and expenses of the Fund excluding transaction costs and abnormal expenses such as the cost of holding an investor meeting.

#### Transaction and operational costs

The Fund will incur transactional and operational costs when dealing with the assets of the Fund, including transactional brokerage, clearing costs, the buy/sell spreads of any underlying funds and/or derivatives. Transactional and operational costs associated with dealing with assets of the Fund may be recovered by Pengana and paid out of the Fund's assets. We estimate the Fund's transactional and operational costs to be approximately 0.095% p.a. The net transactional and operational costs not recovered through the buy/sell spread are estimated to be 0.0% p.a.

Based on a buy spread of 0.250%, an investment of \$50,000 will incur a transaction cost of \$125. Based on a sell spread of 0.25%, a withdrawal of \$50,000 would also incur a transaction cost of \$125.

#### Payments to IDPS operators

These are commercial payments made by Pengana to IDPS operators. If you invest via an IDPS these payments may be rebated to you or may be retained by the IDPS operator.

How and when these payments are made vary between Pengana and IDPS operators. They are paid by Pengana out of the management costs that it receives from the Fund and are not additional costs to you.

# Management fee may be negotiated with direct wholesale clients

Wholesale clients who invest directly in the Fund may be able to negotiate a rebate of part or all of the management fee by contacting Pengana. We suggest that you consult your tax adviser in regard to the tax treatment of any fee rebates.

#### 7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

#### US FOREIGN ACCOUNT TAX COMPLIANCE ACT ("FATCA")

Pengana may be required under Australian tax legislation to request investors to provide additional information in order to comply with US FATCA compliance obligations. FATCA is a US tax law that requires Foreign Financial Institutions (FFIs) to comply with a number of additional compliance obligations in order to ensure that 30% FATCA withholding tax is not deducted from certain US sourced income, gross proceeds from the sale of securities giving rise to such income and 'pass thru' payments.

# OECD COMMON REPORTING STANDARD

The OECD Common Reporting Standard for Automatic Exchange of Financial Account Information (known as Common Reporting Standard or CRS) requires certain financial institutions to report information regarding certain financial accounts to their local tax authority and also requires certain due diligence procedures to be followed. Generally speaking, the responsible entity of the Fund will be required to report information under the CRS. We may therefore request that investors and prospective investors provide certain information in order to comply with the requirements. A jurisdiction that has signed the CRS Multilateral Competent Authority Agreement may provide this information to other jurisdictions that have signed the CRS Multilateral Competent Authority Agreement. Australia is a signatory of the CRS Multilateral Competent Authority Agreement and the Australian Government has enacted legislation to give effect to the CRS.

#### IMPORTANT INFORMATION FOR NEW ZEALAND INVESTORS IN THE PENGANA WHEB SUSTAINABLE IMPACT FUND

This Important Information for New Zealand Investors in the Pengana WHEB Sustainable Impact Fund (Fund) must be read together with the current Australian Product Disclosure Statement and Product Guide relating to the Fund. Words defined in the Product Disclosure Statement or Product Guide have the same meaning in this document.

#### Warning statement for New Zealand Investors in the Pengana WHEB Sustainable Impact Fund

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand Iaw. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (http://www.fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

The dispute resolution process described in this offer document is only available in Australia and is not available in New Zealand.

#### **Distribution reinvestment scheme**

Units in the Fund allotted under the distribution reinvestment scheme will be allotted in accordance with the current Australian Product Disclosure Statement, Product Guide and the Constitution for the Fund.

Within 30 days of the day on which the units in the Fund are allotted to a person under the distribution reinvestment scheme, the person will be sent a statement of the amount of the distribution and the number of securities that have been allotted to that person.

Pengana may suspend the distribution reinvestment scheme at any time including for the purpose of controlling the size of the Fund and protecting investors' interests.

The distribution reinvestment scheme contains provisions requiring that:

- at the time the price of the specified financial products is set, the issuer has no information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the financial products if the information were publicly available;
- b) the right to acquire, or require the issuer to issue, specified financial products is offered to all holders of financial products of the issuer of the same class, other than product holders who are resident outside

Australia or New Zealand and who are excluded by the issuer to avoid a risk of breaching the laws of the relevant overseas country;

- every product holder to whom the right is offered is given a reasonable opportunity to accept it;
- the specified financial products issued to a product holder are issued on the terms disclosed to the holder; and
- e) the specified financial products issued to a product holder are subject to the same rights as the financial products issued to all holders of financial products of the same class who agree to receive the financial products.

The following documents are available from Pengana, on request and free of charge:

- the most recent annual report of the Fund (if any);
- the most recent financial statements of the Fund (if any), including the auditor's report in respect of those financial statements (if any); and
- the current Australian Product Disclosure Statement and Product Guide relating to the Fund.

These documents may be obtained by electronic means at www.pengana.com

Withdrawals by New Zealand Investors Withdrawals from the Fund are normally effected by way of redemption.

We may suspend or terminate their appointment for any reason considered reasonable, and may change the terms on which they operate your account.

You indemnify us from any loss you or we suffer as a result of the actions of your appointed financial adviser, and agree to ratify their actions if we ask.

#### 10.1 Tax Residence - Individual/Sole Trader

#### HELP

#### Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency. It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes.

If you are unsure, ask someone who knows, usually your accountant.

#### 10.1.1 Individual - Investor 1

Yes - please tell us your TIN.

#### HELP

#### What is a TIN?

This is short for Taxpayer Identification Number, an identification number issued or used by tax authorities. In Australia, the equivalent is the tax file number (TFN). For the US, it could for example be a US Social Security Number, a US Individual Taxpayer Identification Number or a US Employer Identification Number. In other countries, it may have a different name.

## Why you need to complete this section?

The Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) are regulatory requirements that aim to deter tax evasion by US and other foreign taxpayers. The Australian and a number of other foreign Governments have an agreement which requires us to obtain certain information from investors, including taxation information. You may be liable to a penalty if you provide information that is false or misleading in a material particular. We may decide not to open an account without first receiving the required information. For more information, visit www.ato.gov.au.

If you are unsure of any of the answers, please contact a legal or accounting professional.

## HELP

Tell me about tax residence

You can be a resident of more than one country for tax purposes. Whether you are tax resident of a particular country for tax purposes is often based on the amount of time you spend in a country and the location of your residence and/or place of work. If you pay tax or have a tax liability somewhere, you are probably a tax resident there. Dual citizenship often brings dual tax residency. It depends on the country. For the US, tax residency can be as a result of citizenship or residency for tax purposes.

If you are unsure, ask someone who knows, usually your accountant.

For further details about a Financial Institution, please refer to the ATO's AEOI Guidance - <u>https://www.ato.gov.au/general/international-tax-agreements/in-detail/international-arrangements/automatic-exchange-of-information---crs-and-fatca/?page=2#2\_Financial\_institutions</u>.

## What is a GIIN?

This stands for Global Intermediary Identification Number. GIINs are 19 digits long, issued by US tax authorities (the IRS) to non US financial institutions and sponsoring entities for purposes of identifying their registration with the IRS under US tax laws (called FATCA). For further details about the GIIN please refer to the IRS GIIN Composition Information - <u>https://www.irs.gov/businesses/corporations/fatca-registration-and-ffi-list-giin-composition-information</u>.

#### 13.1.5 Are you active or passive?

I am an 'active' non financial entity. Please tell us what type of active NFE you are below - then go to **section 14** and **15**.

I am a 'passive' non financial entity.

## HELP

## What is active and passive?

A non-financial entity (NFE) is any entity that is not a financial institution as defined above.

You will be a passive NFE if you are not an active NFE.

Generally, you will be an active NFE if:

your stock (or a related entity's stock) is regularly traded on established securities market less than 50% of your gross income for the previous reporting period was passive income and less than 50% of your assets during that period produce or were held to produce passive income.

you are a Governmental entity, an international organisation, a central bank or an entity wholly owned by one of the above.

you are exempt from income tax in your residential jurisdiction and were established and operated exclusively for religious, charitable, scientific, artistic, athletic or educational purposes and meet certain other specific criteria.

you have not been a financial institution in the past five years and are in the process of liquidating your assets or reorganising with the intent to recommence operations other than as a financial institution.

If you are unsure whether you are an active or passive NFE, please get advice.

#### 13.1.6 Do you have any controlling persons who are resident of another country or jurisdiction of tax residency for tax purposes?

I am passive, and yes I do have controlling persons who are resident of a country or jurisdiction other than Australia for tax purposes

Complete the **controlling persons details** in the table below - then go to **section 14** and **15**. If there is not enough room in the table, please copy the page and attach it to your completed form.

I am passive, but no I do not have controlling persons who are resident of a country or jurisdiction other than Australia for tax purposes. It would be unusual to think of no-one. Please read the **HELP** box. If you are sure - go to **section 14** and **15**.

## HELP

#### **Controlling persons**

Controlling persons are natural persons who exercise control over an entity.

For trusts, the settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust for FATCA/CRS purposes.

For companies, controlling persons generally include any person who holds (directly or indirectly) more than 25% of the shares in the company and any person who has the power to influence decisions about the company's financial and operating policies, such as senior managing officials or directors.
