### Investment strategy

I00F MultiSeries 30 (Trust) gains its exposure to a diversified portfolio of investments through a mix of investment managers.

The conservative nature of the Trust provides a greater exposure to defensive assets, such as fixed interest and cash with a moderate exposure to growth assets, such as property, Australian and international shares and alternative assets.

A mix of passive, factor based and active investment managers may be selected to manage the assets of the Trust providing differing yet complementary investment styles to achieve more consistent excess returns.

The Trust is authorised to utilise approved derivative instruments for risk management purposes and investment efficiency. Please note that derivative instruments cannot be used to gear the Trust's exposure.

The underlying managers may utilise strategies for the management of currency exposure. It is the strategy of the Trust that international currency exposure may be hedged. The Trust has the capacity to change the level and nature of any currency overlay or allocation to underlying managers to manage currency risk.

### Quarter highlights

- Western Asset Management was appointed to the fixed interest portfolio to manage a multi-asset credit fund. Goldman Sachs multi-factor strategy was replaced with Challenger Index Plus in the international equities portfolio.
- Diversified fixed interest portfolio outperformed, with all underlying managers outperforming their benchmarks.
- Brandywine, Invesco and Janus Henderson performed particular well. Of note, Stone Harbor emerging market debt strategy returned in excess of 16%.
- Alternatives portfolio also outperformed, with solid performance from private debt manager, Metrics.
- International equities portfolio underperformed as a result of underperformance from TT International, Alphinity and Goldman Sachs multi-factor strategy.

### Notes to the trust profile

- 1 This cost may vary from time-to-time due to changes to underlying investment managers and their fees. Please refer to the latest PDS and [www.ioof.com.au](http://www.ioof.com.au) for full details on fees and costs.
- 2 Performance is net of management costs and expenses. Performance is based on exit price to exit price for the period and assumes that all distributions are reinvested. Management costs and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance. Please refer to [www.ioof.com.au](http://www.ioof.com.au) for updated performance information. Performance data is provided by FE fundinfo (FE fundinfo (Australia) Pty Limited, ABN 18 601 868 311). For further information visit <https://www.fe-fundinfo.com>
