1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Paradice Investment Management Pty Ltd ("Paradice") as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Paradice Investment Management Pty Ltd

Paradice was established in 1999. As Australia's first boutique investment firm specialising in smaller companies, Paradice quickly became known for its ability to deliver solid long term returns within this niche marketplace. Recognising investor demand for portfolios focusing on mid and large cap investment strategies, Paradice expanded its investment offerings to incorporate these options. The Australian Small Cap product was launched in 2000, the Australian Mid Cap product was launched in 2006 the Australian Large Cap (now the Australian Equities) product followed in 2007, the Equity Alpha Plus in 2020 and the Sustainable Transition Fund in 2022. In 2010, Paradice established an office in Denver and more recently in San Francisco, USA, from where the Paradice Global Small Cap and the Paradice Global Emerging Markets products, are managed.

2. How the Paradice Global Small Cap Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is $20,000 (unless otherwise determined by the Responsible Entity).

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Unit Registry Services - Paradice Investment Management
GPO Box 804
Melbourne VIC 3001

Please note that cash and cheques cannot be accepted.

Payment should be made via electronic bank transfer and the transferring party must be Real Time Gross Settlement ("RTGS") compliant.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.30%.

No interest is earned on application monies.

Fractions of units may be issued by Equity Trustees in accordance with the provisions of the Constitution.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can increase your units in the Fund by reinvesting distributions (see below) or by making additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is $1,000 (unless otherwise determined by the Responsible Entity).

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income semi-annually in or around the end of June and December, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Paradice New Zealand Investor Information Sheet).

Access to your money

Investors in the Fund can decrease their units by making a withdrawal request of their investment by completing a written request to withdraw from the Fund and mailing it to:

Unit Registry Services - Paradice Investment Management
GPO Box 804
Melbourne VIC 3001

Or sending it by fax to 1300 160 334

The minimum withdrawal amount is $5,000, unless otherwise approved by Equity Trustees. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests in certain circumstances, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.30%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below $20,000 as a result of processing your withdrawal request, although we will generally provide investors with 30 days' notice of any proposed redemption in these circumstances. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Paradice Global Small Cap Fund

Global small cap companies are the largest investment universe with the least amount of broker research coverage. The Investment Manager believes that there is an opportunity to find value no matter where we are in the economic cycle. By building a diversified portfolio of global investments that exhibit four key characteristics (undervaluation, business quality, strong financial metrics and shareholder-friendly boards) the Fund aims to generate strong, long term risk-adjusted returns.

Global small cap companies have generally outperformed global large cap companies over long periods of time as well as having substantial operating leverage and revenue growth opportunities over the medium to long term. But remember, past performance of a particular stock or sector is not a reliable guide to future performance.

Other significant benefits of investing in the Fund may include:

- access to Paradice's global investment expertise;
- active risk management (through the form of risk spreading);
- access to investment opportunities that individual investors often cannot achieve;
- generally investing for less cost than ordinary investors can achieve individually;
- the ability to generally add to or withdraw your investment daily;
- the right to receive any distributions we make from the Fund (usually semi-annually);
- the benefit of capital gains (or losses) when you dispose of your units; and
- a robust compliance and governance structure with a trusted responsible entity and legal rights under the Constitution of the Fund.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Paradice do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Climate Change Risk

Climate-related risks can manifest in a number of different ways and have the potential to have an adverse effect on investments and operations.

Climate-related risks to the business of the Responsible Entity, the Investment Manager and other key service providers to the Fund, include but are not limited to physical risks (such as direct damage to assets or property as a result of climate change causing supply chain disruption and resulting in lower productivity) and transitional risks (such as a move towards a lower carbon economy, changes in regulatory policy, and social adaptation).

Climate-related risks can also impact the value of investments and assets (such as the devaluation of investments due to unfavourable changes, such as statutory requirements or taxes).

Currency risk

The Fund will invest in securities denominated in currencies of other countries. If these currencies change in value relative to the Australian dollar, the value of the Fund's investments can fluctuate. Paradice does not generally hedge the currency exposure in any way.

Derivatives risk

Paradice may, but is not required to, use derivatives for risk management purposes for the Fund. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. Fluctuations in the price of derivatives reflect movements in the underlying assets, reference rate or index to which the derivatives relate. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security.

Other risks associated with derivatives may include:

- loss of value because of a sudden price move or because of the passage of time;
- potential illiquidity of the derivative;
- the Fund being unable to meet payment obligations as they arise;
- the counterparty to any derivative contract not being able to meet its obligations under the contract; and
- significant volatility in prices.

Paradice does not currently use over the counter derivatives. Note that neither Equity Trustees nor Paradice guarantees that the Fund's derivatives strategy, if used, will be successful.

Emerging markets risk

The Fund may also hold a portion of its investments in emerging markets, which are markets in certain countries which may not be as developed, efficient or liquid as in Australia. Therefore, the value of securities in these markets may often be more volatile and the markets for securities may be less liquid. Emerging markets risk is also caused by exposure to economic structures that are less diverse and mature and to political systems that are less stable than those of developed countries. In addition, issuers in emerging markets may experience a greater degree of change in earnings and business prospects than would companies in developed markets. The Fund's emerging markets exposure will generally not exceed 35% of the Fund's market value in aggregate to countries in the S&P Emerging Broad Market Index.

Epidemic/pandemic and catastrophe risk

Health crises, such as pandemics and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on investments and operations. For example, any preventative or protective actions that governments may take in respect of such diseases or events may result in periods of business disruption, inability to obtain raw materials, supplies and component parts, and reduced or disrupted operations for client portfolio companies. In addition, under such circumstances the operations, including functions such as trading and valuation of the Investment Manager and other service providers, could be reduced, delayed, suspended or otherwise disrupted. Further, the occurrence of epidemics, pandemics and catastrophes that may arise in the future, could result in a general decline in the global economy, and negatively affect the performance of individual countries, industries, or sectors in significant and unforeseen ways. Deteriorating economic fundamentals may in turn increase the risk of default or insolvency of companies, negatively impact market value, increase market volatility, cause credit spreads to widen, and reduce liquidity. Further, the Fund's key service providers may incur extraordinary expenses, reduction in revenues, delays, or interruption of critical business functions relating to such events. All these risks may have a material adverse effect on the performance and financial condition of the securities in which the Fund invests, and on the overall performance of the Fund.

Fund risk

Risks particular to the Fund include that it could terminate, the fees and expenses could change, the investment manager or responsible entity could be replaced and the investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Inflation risk

Inflation risk is the risk that returns will not be sufficiently higher than inflation to enable an investor to meet their financial goals.

Interest rate risk

Changes in official interest rates can directly and indirectly impact (negatively or positively) on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and thus the valuation of stocks. For instance, rising interest rates can have a negative impact on the Fund's or company's value as increased borrowing costs may cause earnings to decline. As a result, the unit value or share price may fall.

International investing risk

The Fund will hold investments in global securities. Certain countries may impose restrictions on the ability of locally domiciled companies to make payments of principal, dividends or interest to investors located outside the country, due to blockage of foreign currency exchanges or otherwise. Generally, there may be less publicly available information about foreign companies due to less rigorous disclosure or accounting standards and regulatory practices. In addition, the Fund could be subject to risks associated with adverse political and economic developments in certain countries, which could cause the Fund to lose money on these investments.

Legal risk

There is a risk that laws, including tax laws, might change or become difficult to enforce. This risk is generally higher in emerging markets. Legal and regulatory risk may affect the performance of individual investments held by the Fund.

Liquidity risk

There may be times when there may be a limited secondary market for the securities in which the Fund may invest and that may affect the ability of the Fund to realise investments or to meet withdrawal requests (e.g. in a falling market where companies may become less liquid). Small and mid capitalisation companies tend to be less liquid than larger capitalisation companies. Note that neither Equity Trustees nor Paradice guarantees the liquidity of the Fund's investments or of investments in the Fund.

Market risk

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund and your investment in it.

Security selection risk

Paradice may make investment decisions that result in low returns. This risk is mitigated to some extent by the knowledge and experience of Paradice.

Security specific risk

There may be instances where a company or managed investment scheme will fall in price because of company/managed investment scheme specific factors (e.g. where a company's or manager's major product is subject to a product recall). The value of investments can vary because of changes to management, product distribution or the company's business environment.

Small company risk

The Fund invests primarily in small capitalisation companies. While small capitalisation companies may offer greater potential for capital appreciation than larger, more established companies, they may also involve greater risk of loss and price fluctuation. The market for securities of small capitalisation issuers may be less liquid and more volatile than securities of larger companies. This means that the Fund could have greater difficulty buying or selling a security of a small capitalisation issuer at an acceptable price, especially during periods of market volatility.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

To outperform the Benchmark over a three to five-year period (after management costs and before tax).

Please note that the investment objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the medium to long term on the assumption that equity markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed.

Benchmark

S&P Global ex Australia and New Zealand Between USD1 Billion and USD5 Billion (AUD) Net Total Return Index

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is five to seven years.

Risk level

High.

This Fund has been assigned a 'higher risk' designation based on its exposure to a diversified global portfolio of small and mid cap markets equities. This grading is not intended to be a guarantee of any actual level of risk or an indication of likely returns.

Investor suitability

The Fund is primarily designed for investors seeking superior medium to long term capital growth from exposure to a diversified global portfolio of quality small and mid cap companies. Investors need to be comfortable with the short-term fluctuations inherent in small and mid cap equity investments.

Investment style and approach

Paradice believes that investment markets are inefficient as a result of excesses in collective market emotion, short-termism and too much market focus on profit and loss statements. Paradice focuses on identifying securities that exhibit four key characteristics – undervaluation, business quality, strong financial metrics and shareholder-friendly management teams.

Paradice strives to buy assets with a discount to its assessment of intrinsic value. The intrinsic value of a security is what the security would be worth if a buyer was to purchase 100% of the business. Paradice employs discounted cash flows and real world transaction multiples to arrive at its assessments of intrinsic value. Paradice earns the vast majority of its investment returns through the unwinding of the discount.

While undervaluation is the lynchpin of Paradice's process, investment candidates must generally also exhibit unique business quality with solid financial strength and management teams that we believe know how to grow business value. Business quality is revealed in those businesses that have leading market shares, solid margins, strong free cash flow generation and improving returns on investment capital. Paradice searches out companies that exhibit limited amounts of financial and operating leverage. Paradice believes this financial strength is both an offensive and defensive measure.

Strong balance sheets are offensive such that management teams can utilise this strength in an economic downturn to improve the earnings power of the business. Paradice generally searches out those conservative management teams that understand business quality, the power of a strong balance sheet and what it takes to grow business value over time.

At the end of this rigorous analytical process, companies are ranked by the degree of the discount of the current market price to the team's estimate of the company's intrinsic value. Paradice generally invests where it believes it can get the best risk/ reward characteristics. Paradice assembles the portfolio by taking bigger positions in companies where the discount is greatest and smaller positions in companies with narrower discounts. Sizing of investment is also subject to adjustments for appropriate diversification by geography and sector and liquidity.

Asset allocation

In seeking to achieve the investment objective, the Fund will generally invest in global small and mid capitalisation companies (excluding Australian and New Zealand companies) that have a weighted average market capitalisation of less than US $5 billion and cash (refer below).

The Fund will be denominated in Australian dollars and currency exposures will be generally unhedged.

The Fund will generally have between 40 securities and 80 securities.

In the event that the Fund receives an application or redemption, the Fund may buy or sell equities on market prior to that application or redemption being reflected in the Net Asset Value of the Fund. In the case of an application, this may result in the Fund being temporarily leveraged. Such temporary leverage may also occur if application monies are equitized and ultimately not received by the Fund.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Decisions about the selection, retention or realisation of investments for the Fund are primarily based on company and industry fundamentals. Paradice takes into account labour standards, environmental, social and ethical issues when making these decisions to the extent that these issues have a material impact on either investment risk or return.

Fund performance

Up to date information on the performance of the Fund will be available by visiting **www.paradice.com**. A free of charge paper copy of the information will also be available on request by calling Paradice on 02 8227 7400. But remember, past performance of a particular stock or sector is not a reliable guide to future performance.

Any of the above details could change at any time and without notice. Where we consider the changes are significant, we will notify you of the changes (and, where required, give you 30 days' prior notice).

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees (excluding transaction-based fees such as trading or settlement costs incurred by the custodian), and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The performance fees for the Fund are 0.08%[3] of the NAV of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

A performance fee is payable to the Investment Manager where the investment performance of the Fund after management fees and costs exceeds the performance of the Benchmark. The performance fees are 15% of this excess, calculated daily and paid monthly in arrears from the Fund and calculated based on the daily NAV of the Fund over the relevant period.

If the Fund does not outperform the Benchmark, after deduction of management fees and costs (in dollar terms) no performance fees are payable. Also, if the Fund outperforms the Benchmark, no performance fees are payable until any accrued under performance (in dollar terms) from prior periods has been made up (this is known as the high-watermark). In the event that there is a redemption from the Fund at a time when performance fee losses exist, the amount of the performance fee losses will be reduced by the percentage of the NAV of the Fund that the relevant redemption represents.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at **www.eqt.com.au/insto**.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.30% upon entry and 0.30% upon exit. The dollar value of these costs based on an application or a withdrawal of $20,000 is $60 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.05% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2022.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 4% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on 02 8227 7400 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Paradice Global Small Cap Fund		
BALANCE OF $50,000 WITH A CONTRIBUTION OF $5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional $5,000 you put in, you will be charged $0
Plus Management fees and costs	1.25% p.a.	**And**, for every $50,000 you have in the Paradice Global Small Cap Fund you will be charged or have deducted from your investment $625 each year
Plus Performance fees	0.08%	**And**, you will be charged or have deducted from your investment $40 in performance fees each year
Plus Transaction costs	0.00% p.a.	**And**, you will be charged or have deducted from your investment $0 in transaction costs
Equals Cost of Paradice Global Small Cap Fund		If you had an investment of $50,000 at the beginning of the year and you put in an additional $5,000 during that year, you would be charged fees and costs of: $665* **What it costs you will depend on the investment option you choose and the fees you negotiate.**

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the $5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the $50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Unit Registry Services - Paradice Investment Management
GPO Box 804
Melbourne VIC 3001

Payment should be made via electronic bank transfer and the transferring party must be Real Time Gross Settlement ("RTGS") compliant.

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a "cooling off" period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unitholder in the Fund during the 14-day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
