### Important information

This PDS is a summary of significant information about the Strategic Sustainable Global Bond Fund (**Fund**) ARSN 649 740 876. It also contains references to important additional information, contained in a separate 'Strategic Funds Additional Information Booklet (**AIB**)' which forms part of the PDS. The references in the PDS which begin with an important information mark, **!**, are in bold. You should consider the PDS and the information in the AIB before making a decision about the Fund.

The information in this PDS is general information only and does not take account of your personal financial situation or needs. You should consult a licensed financial adviser to obtain financial advice tailored to suit your personal circumstances.

### Contact details

If you have any questions or would like more information about the Fund, including hard copies of this PDS and any incorporated materials, please contact Investor Services on:

**Phone:** 1800 002 217

**Address:** Level 6, 161 Collins Street, Melbourne VIC 3000

### Updated information

Information in this PDS may change. If a change will not be materially adverse to investors, then updated information will be made available on the IOOF website ([www.ioof.com.au](http://www.ioof.com.au)). A paper copy of new information can be supplied upon request at no charge. Updated information may be obtained using the contact details above.

## 1. About IOOF Investment Services Ltd

### Responsible Entity and investment manager

IOOF Investment Services Ltd (IISL) is the Responsible Entity (RE) and investment manager of the Fund and is responsible for the management and administration of the Fund. IISL is also referred to as 'RE', 'we', 'us' and 'our' throughout this document.

IISL is part of the IOOF group. As one of the largest financial services groups in Australia, with over 170 years' experience in helping Australians secure their financial independence, the IOOF group provides services to more than 500,000 clients and has more than \$203.9 billion in funds under management, advice and administration (as at 31 March 2021). The IOOF group consists of IOOF Holdings Ltd ABN 49 100 103 722 and its related bodies corporate, and is currently listed in the top 200 on the Australian Securities Exchange (ASX: IFL).

IISL is dedicated to managing the investment assets of the Fund. The responsibilities include establishing, implementing and monitoring the Fund's investment objectives and strategies.

From time to time IISL may appoint other underlying investment managers to manage all or a portion of the Fund's assets. IISL has the discretion to change the underlying investment managers or add or remove managers at any time, subject to the terms of the relevant investment management agreement. For details of the current underlying investment managers, please refer to the fund profile available at [www.ioof.com.au](http://www.ioof.com.au)

### Custodian

IISL has appointed custodians for certain underlying assets of the Fund. The role of the custodian is limited to holding the assets of the Fund as agent of the Responsible Entity. The custodians have no supervisory role in relation to the operation of the Fund and are not responsible for protecting your interests. IISL has the discretion to change the custodians at any time, subject to the terms of any custody agreement, and appoint additional custodians.

## 2. How the Fund works

The Fund is a registered managed investment scheme that is subject to the *Corporations Act 2001* (Cth) (Corporations Act), its constitution and other applicable law.

When you invest your money in the Fund, your money is pooled together with that of other investors and is used to buy investments. We manage the investments on behalf of all Fund members.

So that you know what your share of the Fund is worth, the total value of the assets in the Fund is divided into 'units'. We will quote you a price for each unit and will keep a record of the number of units you have bought. The price of units will change from time to time as the market value of assets in the Fund rises or falls. We will be able to provide you with information about the current unit price to help you decide whether to retain, buy more or sell your units. The price of buying and selling units will vary due to the costs of buying and selling the underlying assets in the Fund.

The minimum initial investment is \$1,000,000 and the minimum additional investment is \$10,000 (although IISL may, at its discretion, accept lower amounts). These minimum amounts do not apply if you are investing indirectly, for example through an Investor Directed Portfolio Service (IDPS).

You can increase your investment at any time by buying more units in the Fund. Generally, you can decrease your investment by redeeming some of your units, although in certain circumstances (such as a freeze on withdrawals) you may have to wait a period of time before you can reduce your investment.

Investing in the Fund means you may receive income (such as interest, dividends and realised capital gains) in the form of income distributions or attributable income.

The type of income you receive depends on the underlying asset classes within the Fund.

Income attributed or distributed to you is generally assessable income and can be made up of both income and realised capital gains. Such income is generally calculated based on the Fund's net income at the end of the distribution period divided by the number of units on issue.

The Fund may distribute income, if any, on a half yearly basis in respect of the distribution periods ending each 30 June and 31 December. It is expected that distributions will generally be paid within 30 days after the end of the relevant distribution period, although the Fund's constitution allows 60 days for the payment of distributions.

There may be times when income distributions may not be made, are lower than expected or are delayed. We may also choose to distribute income or capital at any other time.

**! For more detailed information on the acquisition and disposal of interests in the Fund, go to section 1 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)**

You should read this important information before making a decision. The more detailed information on the acquisition and disposal of interests in the Fund may change between the time when you read this PDS and the day when you sign the application form.

### 3. Benefits of investing in the Fund

The Fund invests in a broadly diversified portfolio of Australian and international fixed interest and money market securities whilst taking into account certain environmental, social and governance considerations. The Fund has a goal of maximising capital appreciation and income.

Investing in the Fund offers you a range of benefits, including:

- access to a professionally managed investment portfolio
- exposure to assets and strategies that would ordinarily be difficult for an individual to invest into
- access to regular information on your investment from the website [www.ioof.com.au](http://www.ioof.com.au) and regular investment statements and an Attribution MIT Member Annual (AMMA) statement after 30 June each year.

**!** For more detailed information on the features and benefits of the Fund, go to sections 2, 3 & 4 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The more detailed information on the features and benefits of the Fund may change between the time when you read this PDS and the day when you sign the application form.

### 4. Risks of managed investment schemes

All investments carry some level of risk, depending on the assets that make up the investment strategy. Those assets with the highest long-term returns (such as shares) may also carry the highest level of short-term risk.

Risks can be managed but cannot be completely eliminated. It is important to understand that:

- the value of your investment will go up and down
- investment returns will vary and future returns may be different from past returns
- returns are not guaranteed and there is always the chance that you may lose money on any investment you make
- laws affecting your investment in a managed investment scheme may change in future
- the appropriate level of risk for you will depend on your age, investment timeframe, where other parts of your wealth are invested and what your risk tolerance is.

The significant risks for the Fund are:

#### Market risk

Unexpected conditions such as market sentiment, government regulations and local and international political events may have a negative impact on the returns of all investments within a particular market. Market risk may have different impacts on each type of asset, investment style and investor.

#### Security specific risk

This is the risk of change in the value of a security caused by factors that are specific to a company or security. For example, changes to a company's operations or management, its business environment or financial position, or market sentiment.

#### Interest rate risk

Changes in interest rates may affect the value and returns on investments.

#### Credit risk

The market value of securities could fall if the issuer or guarantor of a fixed interest security defaults or delays on principal repayments and/ or interest payments, or is otherwise unable to honour its obligations.

#### Term risk

Many factors can affect the value of fixed interest securities, including changes in real interest rates, inflation, supply and demand, early repayment and risk aversion. In general, the longer the duration of a bond, the more sensitive it may be to these factors.

#### Liquidity risk

Liquidity risk arises from the absence of an established market or a shortage of buyers for a security (including a derivative) resulting in an inability to sell that security at the current valuation in a timely fashion. Under abnormal or difficult market conditions, some normally liquid securities may become illiquid.

#### International investment risk

Investing in international markets exposes the Fund to additional risks associated with currency movements, differing tax structures, accounting, auditing and financial reporting standards, and social, economic and political factors that affect a country or region.

#### Derivative risk

Derivatives are contracts between two parties that usually derive their value from the amount or value of an underlying asset, rate or index. Derivatives may be used by the Fund to gain, reduce or modify exposure to a particular asset class or currency. Risks associated with using these tools might include the value of the derivative failing to move in line with the underlying asset, potential illiquidity of the derivative and counterparty risk (this is where the counterparty to the derivative contract cannot meet its obligations under the contract).

**!** For additional information about the risks relating to registered managed investment schemes go to section 5 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The additional information about the Fund may change between the time when you read this PDS and the day when you sign the application form.

## 5. How we invest your money

Set out below is a summary of the key features of the Fund. **You should consider the likely investment return, the risk and your investment timeframe when choosing to invest in the Fund.**

Objective	To maximise returns (including income and capital appreciation) comparable to the Bloomberg Barclays Global Aggregate Bond Index (hedged to AUD) by investing in a broadly diversified portfolio of eligible domestic and global fixed interest securities with controls on the portfolio maturity, security maturity, credit quality and diversification. The Fund seeks to achieve its objective whilst taking into account certain environmental, social and governance (ESG) considerations.
Type of investor the Fund is suitable for	The Fund is intended to be suitable for investors seeking a liquid, diversified portfolio that provides exposure to the returns of global fixed interest securities and those also seeking to have certain environmental and sustainability impact and social considerations taken into account in the investment decision-making process.
Current Investment Manager	IISL (other underlying investment manager(s) may be appointed to manage all or a portion of the Fund).
Principal investment exposure <sup>1</sup>	A diverse portfolio of investment grade corporate and government fixed interest securities, with a maximum maturity of 30 years from the date of settlement.  The portfolio's exposure to term risk and credit risk can be adjusted in response to changes in security prices, while keeping the portfolio's overall maturity similar to the overall maturity of the global bond market.
Geographic coverage	International, including Australia.
Currency hedging	The Fund seeks to hedge most foreign currency exposure to the Australian dollar.
Risk profile <sup>2</sup>	Medium
Recommended timeframe <sup>2</sup>	3+ years
Performance of the Fund	Up-to-date performance figures for the Fund can be obtained from <a href="http://www.ioof.com.au">www.ioof.com.au</a>
Changes to the Fund	We may make changes to the Fund from time to time, including adding or removing an underlying investment manager, amending the principal investment exposure, and/or geographic coverage of the Fund. We will notify you of any material changes that may impact the nature of the Fund.
Environmental, Social and Governance (ESG) considerations	IISL acknowledges that ESG factors are considered by underlying investment managers in investment decision making processes in order to protect and manage investments for the long term. For more information on how certain ESG considerations are applied when reviewing the investments of the Fund, please refer to section 2 of the Strategic Funds AIB.

1. To achieve its objective, the Fund may gain some or all of its investment exposure by investing in other funds managed by IISL or other investment manager(s).
2. The risk profile and recommended timeframe for investors are a guide only and not a recommendation. Each prospective investor should discuss their investment in the Fund with their financial adviser to ensure it is a suitable investment given their individual objectives, financial situation and needs.

**!** For additional information about the Fund, go to section 2 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The additional information about the Fund may change between the time when you read this PDS and the day when you sign the application form.

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns of your investments or from the assets of the Fund as a whole.

Taxes are set out in another part of this document.

You should read all of the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare the fees and costs with those of other managed investment schemes.

The fees are inclusive of the goods and services tax (GST) and take into account any expected reduced input tax credits (RITCs). Where fees have been quoted to two decimal places, the actual fee may have been rounded.

TYPE OF FEE OR COST	AMOUNT
<b>Fees when your money moves in or out of the Fund<sup>1</sup></b>	
Establishment Fee	Nil
Contribution Fee	Nil
Withdrawal Fee	Nil
Exit Fee	Nil
<b>Management costs<sup>2,3</sup></b>	
The fees and costs for managing your investment	Estimated to be 0.33% pa of the Fund's net assets (excluding transaction costs, and any abnormal or extraordinary expenses).

- When money moves into or out of the Fund, you may incur transaction costs (such as a buy-sell spread) which are included in the entry and exit price of the Fund. For more information on the estimated transaction costs, please refer to page 6.
- Please refer to 'Differential fees' in the Strategic Funds AIB for circumstances in which the management cost may be negotiated. The management cost shown is a reasonable estimate only.
- For more information, please refer to the 'Management costs' section on page 6. The estimated management cost includes the management fee, indirect costs and expense recoveries (excluding any unusual or non-recurrent expenses). The actual management cost may vary from the estimated management cost depending on changes to the Fund's underlying assets, changes to underlying investment managers and their fees, where any unusual or non-recurrent expenses are incurred or any changes to other related expenses.

**Please note:** There is no switching facility.

## Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE Strategic Sustainable Global Bond Fund	BALANCE OF \$1,000,000 WITH A CONTRIBUTION OF \$10,000 DURING THE YEAR	
Contribution fees	Nil.	For every additional \$10,000 you invest, you will be charged \$0.
Plus management costs	<b>0.33% pa</b>	<b>And</b> for every \$1,000,000 you have in the Fund, you will be charged \$3,300 each year.
Equals cost of fund	If you had an investment of \$1,000,000 at the beginning of the year and you put in an additional \$10,000 during that year, you would be charged fees of \$3,300 <sup>1</sup> .	
	<b>What it costs you will depend on the fees you negotiate.</b>	

<sup>1</sup> Additional fees may apply. This example assumes the \$10,000 contribution occurred at the end of the first year, therefore it does not include the management cost on the additional \$10,000 invested, nor any market movement on the total amount invested. You may incur a buy-sell spread whenever you make an investment or withdrawal. The estimated sell spread on withdrawing from the Fund is currently 0.10% (this equates to \$10 on each \$10,000 you withdraw).

### Management costs

The estimated management cost includes the management fee, which is the fee charged by the RE for overseeing and managing the assets of the Fund, indirect costs and expense recoveries. This fee is not deducted from your account directly but from the assets of the Fund. The fee is calculated on the net asset value of the Fund. It is accrued daily and paid monthly, and the accrued amount is incorporated into the daily unit price of the Fund.

### Transaction costs

Certain transaction costs may be incurred in managing the underlying investments of the Fund.

Total transaction costs include the buy-sell spread recovery and other transaction costs.

### Buy-sell spread

The difference between the entry price and exit price is known as a buy-sell spread. It is an adjustment determined by the RE to take into consideration the costs incurred when buying and selling the underlying securities in the Fund.

The estimated buy-sell spread applicable to the Fund is 0.10%–0.10% on investments and withdrawals made to the Fund.

The actual buy-sell spread is subject to change from time to time without prior notice, up to the maximum buy-sell spread allowance as detailed in the Strategic Funds AIB.

Refer to the Strategic Funds AIB for further information on transaction costs and the buy-sell spread allowance.

### Fee changes

We have the right to increase the management costs or to charge fees not currently levied, in each case, up to the maximum limits set out in the constitution governing the Fund without your consent. If we choose to exercise this right, we will provide you with 30 days prior written notice or otherwise notify as the law requires.

At the date of this PDS, no contribution, withdrawal or switching fees apply. There are currently no performance-related investment management fee arrangements in place with any of the underlying investment managers of the Fund.

**!** For additional information about fees and costs, go to section 6 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The more detailed information about fees and costs may change between the time when you read this PDS and the day when you sign the application form.

## 7. How managed investment schemes are taxed

**Investing in a registered managed investment scheme is likely to have tax consequences and you are strongly advised to seek your own professional tax advice. The information provided in this PDS is of a general nature only.**

The taxation implications from an investment in the Fund can be complex and depend on a number of factors including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units as a long-term investment or for short-term purposes.

The following is a brief summary of taxation information relating to Australian tax residents for income tax purposes:

- Managed investment schemes will generally attribute all their tax assessable income to unitholders each year, so that the Fund itself is not subject to Australian income tax.
- The Fund does not pay the tax liability on behalf of Australian resident unitholders. Instead, as a unitholder you will generally be assessed for tax purposes on your share of income and/or net capital gains generated by the Fund that has been attributed to you.
- In normal circumstances, you may expect that some income (and/or capital gains) will be generated each year.

**!** For additional information about taxation matters relating to registered managed investment schemes go to section 7 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The additional information about taxation matters may change between the time when you read this PDS and the day when you sign the application form.

## 8. How to apply

- 1 Read this PDS together with the additional information referred to throughout.
- 2 Direct investors (those not applying through an IDPS or other such service) should complete the application form accompanying this PDS.

### Cooling-off

Retail investors who invest in the Fund directly can request in writing to have their investment in the Fund cancelled within the 14-day cooling-off period under the Corporations Act. The cooling-off period begins when you receive a transaction confirmation or five days after the units are issued, whichever is earlier. If you cancel your investment, you may not receive the same amount that was invested due to negative market movements and applicable transaction costs. There is no cooling-off period with respect to units issued under the distribution reinvestment plan.

Persons investing through an IDPS or master trust (Investor Service) should consult the operator of the Investor Service regarding applications and the cooling-off rights (if any) that may apply to their investment through the service.

### How to make a complaint

If you have a complaint (or wish to obtain further information about the status of an existing complaint), please contact the Manager, Customer Care on 1800 002 217 or write to Manager, Customer Care, IOOF Investment Services Ltd, GPO Box 264, Melbourne, VIC 3001.

If an issue has not been resolved to your satisfaction, you can lodge a complaint with the Australian Financial Complaints Authority (AFCA). AFCA provides fair and independent financial services complaint resolution that is free to consumers.

**Website:** [www.afca.org.au](http://www.afca.org.au)

**Email:** [info@afca.org.au](mailto:info@afca.org.au)

**Telephone:** 1800 931 678 (free call)

**In writing to:** Australian Financial Complaints Authority, GPO Box 3, Melbourne VIC 3001

**!** For more detailed information about complaints and dispute resolution, go to section 2 of the 'Strategic Funds AIB' at [www.ioof.com.au](http://www.ioof.com.au)

You should read this important information before making a decision. The more detailed information about complaints and dispute resolution may change between the time when you read this PDS and the day when you sign the application form.

## 9. Other information

### Privacy

We are committed to protecting your privacy. Any personal information we collect about you will be handled in accordance with our privacy policy, which outlines how we manage your personal information, how you may access or correct your personal information, and how you may complain about a breach of your privacy. To obtain a copy of our privacy policy, please contact Investor Services on 1800 002 217 or visit our website at [www.ioof.com.au/privacy](http://www.ioof.com.au/privacy)

### Related party contracts

IISL has investment and service contracts with related parties within the IOOF group, including:

- **IOOF Service Co Pty Ltd ABN 99 074 572 919 (IOOF Service Co)**

IOOF Service Co has been engaged to provide certain ongoing administration and operational services and is entitled to a monthly fee paid by IISL in consideration of IOOF Service Co providing those services; and

- **Australian Executor Trustees Limited ABN 84 007 869 794 (AETL)**

AETL has been appointed by IISL to provide custody services; and is entitled to a fee paid by IISL in consideration of AETL providing those services.

### Constitution

The Fund is governed by a constitution. The constitution, Corporations Act and certain other laws govern our relationship with investors.

The constitution of the Fund may be inspected at our registered office or we can provide you with a copy on request.

### Compliance plan

The Fund is governed by a compliance plan that details how the RE will comply with the Fund's constitution and the Corporations Act.

The compliance plan of the Fund can be inspected at our registered office during normal business hours or alternatively we can provide you with a copy on request.
